

Mr. Parth A Khakharia

" I am feeling blessed to complete my Masters in Cardiovascular Perfusion Science at DY Patil University, School of Medicine which is an esteemed institute well known in multiple aspects.

Various mentors cum seniors, CVTS surgeons, and all my Cardiac operative team members like Dr.James Thomas, Dr.Bhosle, Dr. Bendre, Mr. Raghuwar Dutt, who have not only supported me in gaining practical and theoretical knowledge but also have helped me out to bring my bests in all aspects. The supportive environment of DY Patil is always at their toes to bring out best in every candidate and give them an opportunity to expand their vision from students perspective too.

Coming on to University and college point of view, I personally feel that I always have been encouraged a lot in social activities, studies, etc which could also be a part of a good leadership qualities in me cultivated by them.

Sneha Sonaware Mam have always been a helpful person everytime inspite of her hectic schedule, from a small documents to arranging a class room for lectures in all aspects.

Finally i would like to convey my sincere thanks to entire faculty and people who have been like my family and supported me. "

Cardiac Traniee Perfusionist at CVTS team
