# WELCOME TO INDIA'S LEADING MULTI ACCREDITED UNIVERSITY!

**Our pioneering approach to education is recognized across the globe by various accrediting bodies.**

## **I) We are always evolving to give the best to our students**

As the world is continuously transforming & upgrading, so are we! In our quest to deliver the best, we regularly update our curriculum so that emergent trends can be incorporated. We study & analyse job profiles across disciplines & professions so that we can design programs that deliver the exact knowledge & skill set desired by employers.

## **II) Enter into a world of real life, challenge based learning**

Scholastic Theory is the foundation of classroom study. But, you require additional exposure to put this theory into practice. That's why we partner with leading companies and entrepreneurs to challenge you, to give you real life based projects throughout your program.

## **III) Join an unconventional University ranked among the best**

We are ranked in the first 100 in the University category by National Institute of Ranking Framework. We are also accredited by National Assessment and Accreditation Council with A grade & CGPA of 3.40. We are also recognized by the University Grants Commission. Our schools are affiliated with respective governing councils such as the Medical Council of India, Dental Council of India, All India Centre for Technical Education, Department of Ayush, Central Council for Indian Medicine, Pharmacy Council of India etc. We are also members of the Association of Indian Universities.

PUT YOURSELF  
FIRST

**It's time to focus on you to fuel your ambition and stretch your intellect to immerse yourself in a community of curiosity to take control and make the right decision for you, with the confidence that DY Patil University can take you where you want to go.**

The decision to study at undergraduate and postgraduate level is a statement of intent to reach further. With the backing of a world leading University renowned for its research excellence, innovative teaching and business sensibility, you can be bold in your thinking and your aspirations. Learning alongside brilliant minds from across the world you'll enjoy the space to deepen your knowledge of the subject you love hone the skills that will boost your career trajectory ,and collaborate with some of the world top thinkers.

What's more you'll find support to build your confidence and enhance your well-being by investing in yourself- your intellectual curiosity, passion for the subject and your drive to propel your career to new heights. You are committing to your intellectual and professional growth.  
It's time to put yourself first

---

FUEL YOUR  
**CURIOSITY**

**We transform learning. This means you'll be inspired and stretched by those who share your passion for your subject within a supportive diverse community you will expand your intellectual understanding , feed your academic curiosity and develop the skills and attributes to propel your career further.**

This community is invigorated by our academics and research. We believe learning underpinned by excellent research leads to transformational change, both in the individual and in the societies within which our research is applied. By encountering, testing intellectual scenarios, and perspectives that disrupt establish thinking, you will prepare yourself to excel in situations that may prove daunting to others.

By surrounding yourself with people who share your desire to push academic boundaries and your motivation to determine a successful future beyond campus, you can reach new depths of knowledge within your subject.

# — DON'T JUST LEARN, DISCOVER YOURSELF

## 1. Interdisciplinary teaching and learning

Teaching is most effective when you are inspired by insights that new knowledge provokes or engage through different ways of learning. In addition to lecture and seminars, we encourage and support our staff and students to push the boundaries of learning by bringing learning to life outside the traditional classroom space.

Taking part in interdisciplinary modules, working alongside students of different department or year group to develop flexible, critical thinking skills that cross rigid subject boundaries. It may involve approaching traditional subject in a non-traditional way through hands on learning opportunities such as performance, re-enactment, visit or event to add extra dimension to your studies, or it might be the flexibility to develop through wider skills whether through learning language, study abroad or taking a short research course with our library.

## 2. Shaping University experience

The ability to think an agile way is at the heart of our approach to teaching & learning. Our community of curiosity provide the intellectual space for you to ask the questions that will help tackle the 21st centuries biggest challenges. You will also have the freedom to answer those questions by searching beyond the subject you choose to study. You will be encouraged to take modules outside of your core subject, which means you will broaden your learning in new and exciting ways. By grasping every learning opportunity available to you at DYPU you will work alongside us to take your knowledge further.

You will already have your own reaction to the current state of the world and we will provide a platform to present your views. Those views will be challenged through and you will learn to challenge back. So immerse yourself in the community of brilliant mind cultures and ambitious, where you will be inspired to realise your potential. our acclaimed academicians are shaping the creation of knowledge on a global scale often by refusing to accept the status quo. They want to share their knowledge but they also want to learn from you.

We believe that knowledge is precious in its own rights and that sometimes you want to learn just for the sheer love of learning. At DYPU you can. And you will be excited about where that learning will take you.

### 3. Develop a global way of thinking

We are a global university with partnership across the world. Join the university of DYPU & these networks will open opportunities to travel, study abroad & make your own worldwide connections.

We are globally connected university. Our aim is to support our students, as they become highly employable, creative & culturally rich graduate with the capacity to find employment that will enable them to be a agent of change in a connected world. Through are global linkages we have students all over the world studying & working or at a joint venture. This connectivity means that all of our students gain international experience either within the classroom & studying alongside international students or by taking advantage of our distinctive program of study abroad.

# WHAT MAKES US SPECIAL?

There are numerous factors that contribute in making Us a standout in front of others. Our students testify to the unconventional environment on campus. Let's hear what they have got to say.

“

I am lucky enough to be lectured by academicians who are involved at the forefront of healthcare research. The buildings on campus house so much exciting and pioneering research. Not only do I benefit by learning from the very academicians doing this work, I also feel greatly inspired and proud to be a part of such a highly regarded University.

”

“

Being involved in sports is a great way to meet new people, stay active and take a break from study. There are so many opportunities on campus.

”

“

The facilities and support are really great. Lots of Library and study spaces and the amount of academic support I received was invaluable.

”

“

I was so excited by the idea of studying the subject I loved with the absolute world experts in the field and at DYPU, you have the opportunity to learn from the very best. One of the things I love most about the college tutorial system is the close contact you have with your tutors; you really feel that they are invested in you as a person, and it's amazing how much confidence you build up within just a few tutorials.

”

“

I think teaching is outstanding. The quality of lectures, tutorials and practical's is incomparable. I have really benefited from the attention and challenges of small group tutorial learning; which has driven me to work harder and learn more than I thought I could and enjoy it.”

”

# WHY CHOOSE US?

## TEACHING LEARNING STYLES

**Not only our faculties are experts in their respective fields but everything they teach is shaped by businesses and profession, so that it is directly relevant to your future career.**

Each of our academic school works with an employer or professional advisory board to keep our courses professionally relevant and up to date. Our vision of being the country's leading University means our teaching places great emphasis on workplace learning, live industry projects and real-world simulation.

Experts from all spheres of the industry and various professions are involved not only designing our curriculum but also in teaching them.

We know our students appreciate the industry links and partnership embedded in our courses, while professional bodies also recognize & value our industry facing approach. Most of our school offer additional opportunities, qualification, and value added courses that will enhance your core academic studies.

We expect all of our faculties to be professionally recognized in teaching. We value and celebrate the teaching expertise of our faculties & are proud of them.

We emphasise on :

- **Work based learning, entrepreneurship and enterprise**
- **Employability and transferable skills into the curriculum with co-curricular awards.**  
An institutional culture where curricula are formed by vocationally informed pedagogy.
- **High level of investment in physical & digital recourses which are accessible to all students.**
- **The extreme widening of personalised learning**
- **An institutional commitment to engaging students as partner in teaching & learning.**

## ACADEMIC SUPPORT

We want you to succeed with us and achieve your goals. Personal or academic support, tutors will work with you within each school to get you through challenging times and help build your confidence from independent studies.

## PROFESSIONAL LINKAGES

We value real world experience to prepare you for life beyond University which is why we have built connections with thousands of companies locally, nationally and internationally.

We draw extensively from subject experts from industry and other professions to make your learning and assessment experience the best it can be. All our school work with an employer or professional Advisory board to make sure our courses stay current and relevant to the world beyond University.

From industry talks and master classes to internship and immersion programs, we will help you build industry connections enabling to create your own network of industry contacts and gain valuable career experience alongside your studies.

Many of our courses offer you the opportunity to undertake a year in the industry between the second & final year of your degree. We support you fully through this process helping you to source professional placement opportunities, working with you to develop your cv and giving you advice on mock test and interviewing skills. We help you to develop your professional network, apply learning from your course to workplace environment and gain a wide range of skills.

We give a chance to have a unique cultural as well as an academic experience by being a part of our immersion programs with many of our international partners. Not only will you have a chance to learn the local language and explore the culture but you will find out how to do business or find employment opportunities abroad in addition to gaining credits as part of an employability units.

# DEVELOP YOUR SKILLS

We are here to help you realise what you are capable of. We will work with you to develop the knowledge, skills and behaviour you will need so that you make an impact where you want to go in the world.

# WORK PLACEMENTS

Our strong placement records speak for themselves. All our courses offer curricula-based placement. If there is an entrepreneur inside you burning to develop your own business, our entrepreneurship department supports and facilitates self-employment opportunities. Our placement ambassadors will share their experience with you and encourage you to get most out of the different opportunities available on campus.

## INNOVATIVE AND COLLABORATIVE LEARNING

Our research informed teaching is led by high calibre faculties, who are experts in their respective field. Not only will they inspire you and pass on their expertise in engaging and interactive ways but they will always provide an active open environment for debate and discussion. You will be taught by some of the leading academicians in their field skilled at developing your critical thinking, analysis and communication skills. Expect high impact lectures, tutorials and one to one personal tutor meeting, plus unique, enhanced learning experience that involve industry expert, professional Workshops and regular real-world work placement.

The teaching, research and learning opportunities are exceptional at DYPU. This makes us one of the best Universities for you in the world.

- 750 + programs to choose from, organised by over 2000 faculties & 20 departments.
- Personalised regular tutorial teaching with subject experts.
- Your own interdisciplinary academic community in one of over 20 schools.
- Exceptional study & research resources.
- 21+ libraries equipped with wide variety of books and e - content.

## VIRTUAL LEARNING ENVIRONMENT

We help you stay connected with your university & professors online. Through Learning Management System you can see your lectures, submit your course work, find your lecture notes and access journals, e- book material & other learning material. You can log in from anywhere, anytime and keep track of your learning activities and stay connected through online discussion forums as well. Using our LMS will transform your learning experience and help to take your learning to the next level.

Online Distance Learning- If studying for a degree on campus isn't for you; we will bring our courses to you online.

You will have the freedom & flexibility to learn and work within the community of students with access to global expertise & working opportunities wherever you are. You can study online with us. For more details log on to [www.dypatildistancelearning.com](http://www.dypatildistancelearning.com)

These degrees follow a similar approach to on campus equivalence and whenever possible over the same topics. These are designed and delivered by same subject experts who teach and assist in a way that is specially designed for web-based learning for students who need to study flexibly. All our online courses have high academic standards. They are created with inputs from international academic partners, forward thinking employers, ensuring you graduate with the skill you need for successful career.

# FACULTIES

With US, you will learn from our renowned academicians and take advantage of our outstanding facilities. Our core strength lies in our exceptionally qualified and well trained faculties who encompass a huge range of academic disciplines.

More than just professors, our practitioner faculties are supportive mentors who are committed to their student's success. Known as much for their academic credentials as for their experience, DYPU professors embody our practical approach to education and will defined your classroom experience. Our teaching style is impassioned unorthodox and above all practical.

# MUMBAI- THE COMMERCIAL HUB OF THE COUNTRY

Mumbai holds the pride of being the wealthiest city in the country, with the highest GDP of all the cities in South, West and Central Asia. This capital city of Maharashtra is the fourth most populous city in the world, with a total population of about 20.5 million. Situated on the West coast of India, Mumbai has a deep natural harbour. Mumbai has been rated among the top 10 centres for commerce and is aptly known as the commercial and the entertainment capital of India. Mumbai accounts for 25% industrial output, 5% of India's GDP and also 70% of the capital transactions in Indian economy. It is home to major financial institutions such as Reserve Bank of India, the National Stock Exchange of India, Bombay Stock Exchange etc. It also has the corporate headquarters of several prestigious Indian companies and various multi-national corporations. The increasing business & job opportunities offer the inhabitants of Mumbai, a better potential for a higher standard of living.

Mumbai presents its people a throbbing and bustling commercial life as it houses the largest port of India, a colossal film industry along with two airports, numerous pubs, bars and restaurants and a major concentration of the textile industry. Obviously, Mumbai is regarded as the financial capital of the country. There are several landmarks in Mumbai, which attract tourists from all over the country and world. Mumbai tends to be one of the most desired tourist centres in India. This city is considered to be the central hub for trade, industry, business & top jobs. The present scenario of Mumbai indicates that it is a growing centre of media activities and advertising too.

---

YOUR LEARNING  
**TRANSFORMED**

**The ability to think in an agile way is at the heart of our approach to teaching and learning. Our community of curiosity provides the intellectual space for you to ask the questions that will help tackle the 21st century's biggest challenges. You will also have the freedom to answer those questions by searching beyond the subject you choose to study.**

You will be Encouraged to take modules outside of your core subject, which means you will broaden you learning in new and exciting ways. By grasping every learning opportunity available to you at the campus, you will work alongside us to take your knowledge further.

You will already have your own reaction to the current state of the world, and we will provide a platform to present your views. Those views will be challenged, though, and you will learn to challenge back. So immerse yourself in the community of brilliant minds, cultures and ambitions, where will you will be inspired to release your potential.

Our acclaimed academics are shaping the creation of knowledge on a global scale, often by refusing to accept the status quo. They want to share their knowledge, but they also want to learn from you.

We believe that knowledge is precious in its own right and that sometimes you want to learn just for the sheer love of learning. At our University you can and you will be excited about where that learning will take you.

But curiosity isn't limited to expanding your subject knowledge. We enable you to cross subject boundaries. So delve into a culture that enables you to build your skills outside of the lecture theatres too, making the most of all the experiences that the campus has to offer.

Whether it's challenge, curiosity or career that drives you, be open to following any path your thinking reveals. Be reassured that, when learning in partnership with us, the breadth, depth, and agility of your thinking will open doors that others cannot.

---

SPACE TO  
**THRIVE**

**In our supportive environment, you will have the space to thrive and realise your ambitions. Our campus gives you a mix of places in which to study, work and relax**

Whether you need to immerse yourself in your reading and research, or collaborate alongside your fellow students, we provide flexible and accessible learning spaces. And when you have free time, you won't be short of things to do whether it's making the most of our great sporting facilities, relaxing with friends, or enjoying the peaceful spots on campus.

Our central location means you won't be tied to either city or country setting. From a large city pulsing with exciting places to explore, the nearby history, culture, and peaceful spaces to escape, you can search out the things that interest you.

As you will be a part of a large community drawn from various countries, each day will expose you to different people, cultures and thinking.

# — PILLARS OF OUR UNIVERSITY

## DR. D Y PATIL

**Founder President & Padmashri Recipient**

Never before in the history of mankind has it been so pervading. Mankind is witnessing the integration of people across nations of the world into a global knowledge based society. Knowledge empowers people. It empowers the individual and accelerates his development and ensures that he commands an enhanced level of respect in society. Knowledge also enables the individual to contribute to the process of national development while being a source for wealth creation. In the society that we live in today, there is a knowledge explosion every moment all over the world. All this is driven and achieved by providing quality par excellence education right from the roots to the tertiary levels of education, Higher levels of exceptional learning through reputed colleges and universities. Students now seek education from advanced centres of learning to enhance their skills and abilities in a highly competitive world.

The University, offers a stimulating environment which brings out the very best in students. Over decades, the University has nurtured and moulded able minds who have now become stalwarts in their profession. World class facilities, Comprehensive Curriculum, Advanced Teaching Methodology, Experienced Faculties – all together provide a wholesome milieu for exceptional skill development and growth.

# DR. VIJAY D PATIL

## PRESIDENT

Choosing the university that is right for you is a big decision. There is a lot to think about from where to go & what to study. To working out finances & working ahead to your future career. We assure that with us you will be able to make the right choice and take decisions about studying at our campus with your 100% surety. Being on our campus is about transforming lives. You have the chance to study, go on work placements to gain valuable professional experience, build your skills and grow your confidence.

Studying with us is a life changing experience & we take pride in knowing you will leave us with the skills, knowledge and attribute to make a real difference in the world. Our focus has been on being a modern business facing university. We work with innovative businesses, public sector organisation and professional bodies to help shape our courses to make sure they give you the practical skills and experience needed by today's employers. We know that getting a good job is a key reason to study at university and it's certainly a good reason to come to DYPU. I am really proud of our vibrant energetic campus and we are continuously investing in our buildings with our student always in mind. You find here Hi-Tech labs and innovative, inspiring learning spaces while sports here offers you one of the best sports and fitness facilities in the country. We have simulation lab and the industry standard creative laboratories and workshops. We are also really proud that we have been recognised at various levels by some of the renowned bodies for our high quality teaching and learning. If you are worried about moving away from home, our campus is the ideal place to help you find your feet and become more independent. It's safe, friendly and provides extensive professional support services.

# MRS. SHIVANI V PATIL

## MANAGING TRUSTEE

Our academic environment offers you the chance to engage with academics at the forefront of cutting-edge research and contribute to solving some of our global challenges.

Here you will have the opportunity to pursue your intellectual curiosity and acquire the habits of mind which will enhance your future experience of life, whatever turn it may take. Our students are greatly sought after by employers and the university has one of the highest employability rates. One of our strengths lies in partnership between university and industry, this combination provides excellent curriculum, latest teaching methodology, great internships, dream placement opportunities, superb facilities, connects the very best minds and support system to help develop your academic interest. We provide ourselves on the close level of personal care provided by faculties and student networks.

We also provide many opportunities to engage in social activities such as sports, performance, literary art, voluntary work as well to develop knowledge & skills to prepare you for the future.

By offering generous financial support we are confident that the education we provide is truly accessible to all with academic ability and potential to succeed here.

We opened our doors in 1984 as an institution for academic innovation & disciplinary ideas. Throughout our journey we strived to build a diverse and thriving community who can tackle the World's toughest challenges together.

Over 3 decades of academic excellence, we have developed a strong sense of who we are and where we are going.

Learning @ DYPU is boundless. We are focussed to equip people with knowledge and requisite skills they need to succeed. We are unique, as we follow unconventional modes of offering scholastic knowledge & acumen. We are one of the first institutes to pioneer courses that give students practical, industry oriented interface along with traditional academic learning.

We offer extensive & comprehensive Undergraduate/Postgraduate/Doctoral programmes in the disciplines of Medicine, Health Sciences, Science & Technology, Management, Architecture, Pharmaceuticals, Management Sciences, Hospitality & Law.

All our courses are designed in a way that they inspire innovation and exploration. All courses begin with a broad introduction to subjects, so that students can make an informed choice for their specialisations. We promote interactive, focussed teaching that caters o a small group of students at a given point of time. Academic Deliverance omprises of lectures, discussion forums, seminars, workshops, internships, summer training and so on.

# WHO WE ARE?

## WELCOME TO THE DYPU EXPERIENCE

today, we stand closer to the industry than ever. We proudly assert to having linkages with various Small & Medium Enterprises than any other university. We also value our international linkages & our partners. We build strong relationships with our industry partners to create exclusive courses.

DYPU stands at the locus of an anonymous regeneration strategy that means India's Engineering, Energy & Built environment sector that is striving for skilled professionals to take the onus of developing these further. We are constantly making new connections with emergent sectors & have a strong track record of supporting local technical start ups, including those of our graduates.

Our students are a vital part of the ongoing transformation of India into a dynamic & unique place to live and work. With us, you will be inspired by globally stimulating projects & minds, making international connections and friends beyond national borders. Develop your talent, discover new interests & chase new dreams with us!

We have always played a major role in improving the lives of our local community and we work with our national partners to find solutions to societal issues such as social mobility, living conditions, public health and well being.

Mumbai is regarded as one of the commercial hubs of the country & is famous as a sporting city. We take full advantage of our strategic location to access some of the greatest athletes, industry stalwarts, giving a huge boost to athletic as well as employability skills of the students.

HEALTHCARE

# PASSION CARE & CURE

**D Y PATIL**  
HEALTHCARE

# WHAT DRIVES YOU

Perhaps it's the joy you feel in learning something new, your passion for your subject, and your enthusiasm to explore what you are capable of. If so, you will want to be somewhere that challenges you academically, where your curiosity is encouraged and you have opportunities to pursue your own research as an undergraduate. You will want teaching staff who will inspire and support you in equal measures. And you will relish the chance to work with friends and fellow students, who can offer fresh insights to extend your understanding.

Maybe it's your ambition to be a frontrunner in a fast moving world that sets you apart. If you are determined to reach the top of your field, you can make it easier by giving yourself the best start.

You may see yourself making an impact on the world around you, motivated by the need to change things for the better. The backing of a University committed to tackling the toughest global challenges through collaborative research, can help you move in the right direction.

If you need the space to be an individual, warm and welcoming campus will help you feel at home. Especially one that is safe and supportive yet always surprising. You will appreciate belonging to a truly cosmopolitan student community.

You will have top sporting facilities, major arts centre, outdoor spaces to relax and unwind and usually large active student campus, and you will benefit from an environment that helps you enjoy full life outside of the lecture theatre.

Wherever you are, there will be a subject of interest that evokes the strongest of feelings. So be somewhere where you can embrace that emotion.

We want you to be excited. To be analytical. To be creative. And, if there are occasions when you are unsure, we want you to feel supported and cared for.

We want you to be proud of what you achieve, but, just as importantly, to enjoy the experience along the way.

We want you here.

# 10 MUST-DOS

## In the Campus

- Think beyond book
- Be a part of every event
- Believe in team work
- Explore maximum opportunities
- Speak for yourself
- Give back to the community
- Build your relations
- Develop ur personality
- Be a sport
- Healthy living
- Think positive

# BECOME IMMERSSED IN YOUR STUDY

DY Patil University is a hub of creative, pioneering thinking, bringing world-class research into the classroom, and inviting you to operate outside of your comfort zone.

## LEARNING FOR THE LOVE OF IT

We are constantly reviewing and refreshing our teaching methods. These may involve discussion, learning from visiting lecturers, or even role-play of real-world scenarios. Some courses also include a group or individual project, enabling you to apply your understanding to a specific question or challenge.

## CAREER FOCUSED

we also strive to bring a commercial sensibility into your learning, helping you prepare for future opportunities. Links with business and industry, and importance we place on skills development as a part of your course, mean that you will graduate as an expert in your subject and gain the advantage when forging your future path.

## LED BY RESEARCH

All our courses are integral to our research, the results of which feed into much of our teaching. Learning from those leading academics gives you access to the latest thinking in your subject.

## OUR STUDENTS SAY

“

When it came time to decide where to study my Master's Degree, I knew I wanted to study in a department whose staff would support me as a student, but also recognise and nurture my potential in my field. DY Patil University exceeded my greatest expectations. Its staff gave us the tools we needed to progress from students to young researchers, taking genuine interest in our ideas and inviting us to professional events where we could learn from, and interact with, the heavy-hitters in our field.

- Abha Rai  
(5<sup>th</sup> year Law Student)

”

### CROSSING SUBJECT BOUNDARIES

Increasingly many of our courses are breaking down the divides between subjects, and using multiple perspectives in order to address the key issues facing our society .these may include the challenges of modern healthcare, or the role of big data in a society transformed by data, networks and computation. No matter what subject you are studying there are opportunities to take your learning further.

### A GLOBAL EXPERIENCE

There are many opportunities for you to broaden your worldview. Some courses enable you to study overseas, or even work towards a masters program with institutions in countries other than India.our partnership with various universities provide exciting exchange of opportunities and innovative extended classroom initiatives. To expand your intercultural skills without leaving campus, you can choose to learn a new language, even as part of a course or through independent study.

# FACILITIES & RESOURCES

## 1. Simulation Lab

When you train to become a medical/para-medical professional, we provide you with real life scenarios in the safe and supportive environment of our Simulation Lab. We are the first higher education institution to impart education excellence through simulation lab. Set up just like a hospital ward the simulation lab is equipped with human patient simulators, including 2 adults, a new born baby, a child and a birthing mother. You will learn how to perform vital procedures that you will use throughout your medical career, whether in India or abroad.

## 2. Auditoriums

The University has well equipped and massive auditoriums to promote the conduct of international, national and other University events such as conferences, workshops, seminars, meetings, placement programmes and cultural events. All auditoriums are well-furnished, air-conditioned and equipped with modern projection and audio systems with access to the internet.

The auditoriums feature fixed traditional theatre style seating, raised stage, adjustable lighting, sound system, large screen for video and computer presentations, and vaulted ceiling. The auditoriums are designed in such a way that they ensure a perfect view of the main stage irrespective of the seating location of the audience.

## 6. Library

Our Library provides a wide range of updated information and resources, groups & silent learning zones. It also provides comfortable informal learning spaces. There are open access networked PC's, printing and copying facilities. To save you time there are many self service facilities like borrowing & returning of books, renewal & reservations. The Library offers techno booths, teaching rooms, seminars and café areas. The electronic resources include e- journals, e -books and data bases.

The University has various special collections. Librarians are qualified to provide leaving support and information skills training and ensure that the appropriate information resources you need are available throughout your course.

Your dedicated librarian can help you acquire valuable information, literacy skills, which will enable you to locate, retrieve, evaluate and use the most relevant resources for ,your research for specific assignments and projects . They publish guides and online tutorials to access resources specific to your subject area, which are a good starting point when you need support. Additionally, there is an open source available online which will help you find information you need. LMS is where all readers notes & class presentations are regularly updated & accessible before lectures or seminars. This is amazing for class preparation & studying for exams.

## 7. Computing and IT

The University IT Department works in partnership with respective schools to provide for all your computing needs. This ranges from the provision of Wi-Fi throughout the University and Colleges to access to specialist computer rooms & advance research computing services.

Most of the student rooms are connected with internet and wireless hotspots are available throughout the University. All schools have their own computer department offering a range of general & specialist software's, printers and scanners.

# TEACHING AND LEARNING

We are known and respected across the country for the excellence of our teaching and research and the quality of our graduates. You are taught by scholastic experts who are renowned experts in their respective fields.

## HOW YOU ARE TAUGHT

At the University, faculties and respective departments arrange lectures, seminars and practical that students from all colleges attend. Special study groups are also formulated for you. Each academic year consists of two semesters and there is greater emphasis on independent and self directed study under the able guidance of your tutors. Every student adjusts to this way of study in their own way and time and there are plenty of people who can offer advice and support while you get settled in and throughout your degree on campus.

# TEACHING METHODOLOGY

## LECTURES

Lectures act as a starting point for your own research and typically last around 45 minutes. Many lecturers are leading academicians working at the forefront of their field, so lectures are a fantastic opportunity to find out about the latest research.

## SEMINARS & CLASSES

These are usually for medium-sized group of around 30 students and last between one or two hours and provide the opportunity to discuss particular topics in more detail they are led by academics but you are expected to contribute actively.

## PRACTICAL SESSIONS

Through fully equipped, advanced laboratories, you will get an opportunity to learn by carrying out experiment yourself & hands-on training.

Practical sessions are conducted regularly under the supervision of faculties.

## FIELD TRIPS

Several courses include opportunities to go on field trips, study visits or language courses, or to study abroad through exchange programmes. Naturally, where you go, how long for and what you do where depends on your course.

The faculties offer guidance to help you go on such trips in India and abroad.

## WORK EXPERIENCE

Some courses include a period of work experience, giving you a chance to explore potential career paths, develop your employability skills and create networks that could lead to job opportunities after you graduate.

# — PASSIONATE PROFESSORS FROM THE REAL WORLD

At the University you will learn from our world leading academic and take advantage of our outstanding facilities. DYPU comprises a number of faculties which between them encompass a huge range of academic disciplines.

More than just professor our practitioner faculties are supportive mentor who are committed to their student's success. Known as much for their academic credentials as for their experience, DYPU professors embody our practical approach to education and will defined your classroom experience. Faculty teaching style is passionate unorthodox and above all practical.

“

The best teachers are those who show you  
where to look but don't tell you what to see.

—Alexandra K. Trenfor

”

## **PROF. (DR.). RAKESH R. SOMANI**

### **QUALIFICATION:**

M. Pharm., PhD.

### **DESIGNATION:**

Professor and Principal

### **EXPERIENCE:**

Total experience: 18 years  
(Industry experience: 3 years,  
Academic experience: 15 years)

I have completed my Ph.D. in Synthetic Medicinal Chemistry and I am involved in teaching and research for the past 18 years. I have more than 45 peer-reviewed research publications to my credit. My major research area includes heterocyclic chemistry, green chemistry and drug designing in Cancer and Tuberculosis treatment. During my research endeavors, I had established research collaborations with various National and International Organizations such as National Institute of Health, USA; CDRI, Lucknow, OIDD Programme, USA, Rega Institute, Belgium etc. I have guided more than 40 Post Graduate and 2 Ph.D. students. My one of the research publications was awarded as Best Research Paper by Indian Drugs Manufacturing Association (IDMA) in 2014. Recently, I am bestowed with Emerging Principal of the year 2019 at 1 st Global Pharma summit held in Mumbai. Apart from academic responsibilities, I am proactively working in accreditation, innovation-incubation and entrepreneurship development activities.

During 3 years of industrial tenure, I worked in diverse capacities in various pharmaceutical industries like Curex Pharmaceuticals, Kopran Research Labs. Ltd. Navi Mumbai, Arch Pharma Labs. Ltd etc. I also contributed in process development and scale up of Macrolides like Roxithromycin, Erythromycin by non-infringing routes.

### **What it is like studying in your class?**

Being a passionate teacher, my endeavor is to make the class interactive with the learners. I believe that teaching-learning should go hand in hand. Since I teach challenging subjects like Pharmaceutical Chemistry and Organic Chemistry, I always ensure to keep the class completely engaged while teaching happens. Various techniques like use of stereochemistry models, flipped class room, group discussions, peer-to-peer learning are used in the class. These activities provide necessary clarity of the topics to the students and knowledge sharing process is executed very impact fully. Moreover, One-on-One problem solving adds into the effective learning.

### **How does your profession experience impact your lessons?**

Fortunately, my industrial experience before entering into academia has been boon to me. I merge my knowledge and expertise gained in the industry with theory while teaching. As mentioned, subjects like Pharmaceutical Chemistry are found difficult by the students due to their complexity and depth, I teach such subjects with my practical knowledge. Secondly, as I am actively engaged in research activities, with more than 50 publications to my credit, my teaching is largely influenced by this acumen as well. Thus my professional experience of 18 years in academia and pharmaceutical industry, help me to teach a difficult topic in more practical way blended with lots of examples.

# THE INSTRUMENTS OF CHANGE

With us, teaching is unique, not only our faculties are experts in their fields, but everything they teach is shaped by businesses and professions so that it's directly relevant to your future career.

Each of our academic schools work with an employer or professional advisory board to keep your course professionally relevant and up-to-date. Experts from business, industry and professions are involved not only in designing our courses, but in teaching them too. We expect all our lecturers to be professionally recognised in teaching the value and celebrate the teaching expertise of our staff.

A research informed teaching is led by high calibre lecturers, who are experts in their respective fields. Not only will they inspire you and pass on the expertise in engaging and interactive ways, but they will also provide creative, open environment for debate and discussion. You will be taught by some of the leading experts who are focussed on developing your critical thinking, analysis and communication skills. Expect high impact lectures, tutorials and one-to-one personal tutor meetings plus you need enhanced learning experiences that involve industry experts, professional workshops and regular real-world work placements. All our faculties are committed and motivated to nurturing you for a great career ahead.

“

**A good teacher must be able to put himself  
in the place of those who find learning hard.**

- Eliphaz Levi

”

## **DR. PRAKASH ROPLEKAR**

### **QUALIFICATION**

- MBBS , MD (Path) , DCP

### **DESIGNATION :**

**Director , Allied Health Sciences ,  
D.Y.Patil University School of Medicine .**

### **Experience:**

As a Teacher in the subject of Pathology –for over 40 years Teaching MBBS , BDS , OT &PT , DMLT Students the subject of Pathology & as a Post Graduate Teacher for MD Pathology Students for the Last 30 years .

DY Patil Deemed to be University is a prestigious University with all medical facilities provided under one roof.

With the diversity of healthcare facilities provided at the DY Patil Hospital the training requirements also vary greatly, thereby increasing the demand of healthcare professionals being well versed to newer and advanced technologies. We at DY Patil School of Medicine, Department of Allied Health Sciences (AHS) offer a wide range of academic programs since 2012 and also provide training opportunities for students who wish to pursue this as a career option.

Allied health professionals aim to prevent, diagnose and treat a range of conditions and illnesses and often work within a multidisciplinary health team to provide the best patient outcomes.

### **About Dr Prakash Roplekar**

Dr Prakash Roplekar holds an MBBS degree with a masters in Pathology and a diploma in Clinical Pathology. He has been teaching the subject of Pathology for the past forty years to MBBS, BDS, OT&PT and DMLT students. Since the last 30 years, he has been teaching post graduate students of Pathology.

### **What do students look forward to in your class?**

I prepare 48 hours in advance. I plan the points in a way that the students can connect immediately. I first discuss the topics with students in the class before starting a lecture, by doing this I think students will have the freedom to express themselves whenever needed which can give the students a sense of happiness and involvement. Keeping the classroom pleasant can impact the way of studying & teaching. Pathology and its subject matter have to be taught in a creative and thoughtful manner

### **How does your professional experience impact your sessions?**

Students will be comfortable & interested if teacher can connect the subjects to real life.

This also helps the students to relate to the subject better and get better learning.

Log book, Journals are good example of teaching in learning skills. It can provide experience along with the existing knowledge.

The professional experience boosts the teaching learning experiences and improves the quality of the training imparted as teaching is not only imparting knowledge but to nurture life skills of students.

“

**The best teachers are those who show you where to look but don't tell you what to see.**

-Alexandra k. Trenfor  
”

## **DR. GAURANG MISTRY**

### **QUALIFICATION**

- MDS (Prosthodontics), BDS

### **DESIGNATION :**

Dean school of Dentistry

HOD department of prosthodontics

### **EXPERIENCE :**

**2008-2021 (22 years)**

### **About me**

Dr. Gaurang Mistry has specialized in Prosthodontics. He has more than twenty years of teaching, administrative, research, and clinical experience to his credit.

He completed his graduation from Nair Hospital Dental College in 1995. Thereafter, he pursued his post-graduation in Prosthodontics from Pad. D.Y. Patil Dental College and hospital, Navi Mumbai in 2005.

He has been associated with the DY Patil Deemed to be University for more than 19 years. He is a member and president of the Indian Prosthodontic Society Mumbai Navi Mumbai State Branch. He has constantly promoted curricular, co-curricular, and extracurricular activities in the institute for the overall development of the students and staff. He has many research papers to his credit and has guided UG, PG students as well as Ph.D. scholars

### What do students look forward to, in your class?

I like to keep my lectures interactive. I encourage maximum participation from students. Students are encouraged to give their views on the subject matter. I ask students for their opinions on a particular case and have case discussion based on what the students feel. After listening to all their views and discussing the pros and cons of their ideas I finally tell them how I would approach the case.

### How does your Professional experience impact your Lessons?

I use my professional experience to give a more practical oriented approach to all my lectures. As far as possible I try to include practical videos in the lectures. I feel that dentistry is always evolving and as clinicians, we need to evolve with dentistry. I try to encourage this in my students.

“

**A good teacher can inspire hope, ignite the imagination, and instill a love of learning.**

-Brad Henry

”

## **DR. VANI KAMATH**

### **QUALIFICATION**

- Ph.D., MBA, BBA

### **DESIGNATION :**

Dean

### **EXPERIENCE :**

Teaching – 17 years

**About me :**

Dr Vani Kamath has published more than 50 research papers both in Indian and foreign journals. She has been the recipient of the BEST TEACHER award, conferred by the Higher Education Forum. She is a reviewer for several international journals having a high impact factor. Research is her forte. She is a research guide for M. Phil and PhD students of several universities in India, having guided several research scholars and who have gone on to obtain their Ph D degree, under her guidance. She has also guided Graduate and Post Graduate students towards research. Dr Kamath is also a member of the Board of Studies of Mumbai University affiliated colleges. She has represented the School of Management in AICTE, UGC and NAAC. She has been a resource person for conducting financial literacy programs for SEBI.

The subjects which Dr Kamath likes teaching in her class are Financial Accounting, Financial Management, Corporate Finance and other management related subjects.

**What do students look forward to in your class?**

The students love to attend my class, as it comprises of not only intellectual transfer of ideas and knowledge sharing but also activities, which facilitate reverse learning. Quizzes, role-plays and real life case studies are an essential part of the teaching in class. Experiential learning is my main objective.

To quote Benjamin Franklin, "An investment in knowledge pays the best interest". I keep myself occupied by learning new concepts regularly by being part of Faculty development programs. The objective of this is to enhance my knowledge on diverse areas and topics and share the same with my students in the class. The industry-oriented projects that I have done with our industry partners has given an added advantage. The learnings of these projects are taken to the class and shared with the students. The rich research experience, which are gained over the years, are translated in the form of chapters and shared with the students in the class.

“

**A good teacher must be able to put himself  
in the place of those who find learning hard.**

- Eliphas Levi

”

## **DR. R. Gopal**

### **QUALIFICATION**

- D.Litt, Ph.D, MBA, ICWA,  
B.Tech (Hons) (Mech)

### **DESIGNATION :**

**Director, Head of the Department and Former Dean**

### **EXPERIENCE :**

**Industry -27 Years**

**Teaching – 34 years**

Dr R Gopal has published more than 200 research papers both in Indian and foreign journals. He has been the recipient of the BEST OUTSTANDING RESEARCH PAPER at the Asia Pacific Marketing Conference held in Malaysia. He is a reviewer to several international journals having a high impact factor. He has guided M. Phil and PhD students of several universities in India. More than 60 research scholars have received their PhD and M. Phil degree under his guidance.

Dr Gopal has authored several books and is the Chief Editor of several national and international journals of repute. He has written several books on Management which have been well received by the student and corporate community. Dr. R. Gopal is the recipient of the

- RASHTRIYA VIDYA SARASWATI PURASKAR awarded by the International Institute of Education and Management.
- RASHTRIYA VIKAS RATAN AWARD, awarded by the Economic Growth Society of India.

- Glory of India Award awarded by the Indo British Society, London,
- Rajiv Gandhi Education Excellence Award
- BEST TEACHER AWARD awarded by the Higher Education Forum.
- BEST MANAGEMENT TEACHER AWARD In Management Education by the MTC Global and Knowledge Café
- Educationist Award by the National and International Compendium, New Delhi.
- STAR OF ASIA award and many many more.
- The subjects which he likes teaching in his class are Strategic Management, Strategic Marketing, Strategic Finance

### **What do students look forward to in your class?**

The Pedagogy followed by me essentially comprises of two parts namely Fundamental knowledge of subjects and Application knowledge of the subjects which is based on the corporate experience I have. The impact of this is that the students have seen the application of theoretical knowledge. This further comprises of series of pedagogical tools such as case study, quiz's etc. This makes the learning process completely fun loving and not at all boring. Through the case study come up projects and sharing of the corporate experience relevant to the subject makes teaching learning completely impact full as the students are able to co relate teaching classroom with practical teaching in the classroom itself.

The net result has been that School's placements have been very good and students have been able to get good career opportunities in well-known organizations. My entire motto has been STUDENTS first and to TRANSFORM EVERY STUDENT INTO AN ACHIEVER so that EVERY STUDENT WILL CREATE A SUCCESS STORY

“

**The best teachers are those who show you where to look but don't tell you what to see.**

-Alexandra k. Trenfor”

## **DR. SUNIL MOKASHI**

### **QUALIFICATION**

- MOT (REHAB)

### **EXPERIENCE :**

**33 yrs**

### **About me :**

Dr Sunil Mokashi has 33 years of experience working in the field of Occupational Therapy, of which 26 years went into teaching. He has worked as the Head of the Occupational Therapy departments at various institutes in India as well as abroad. He was involved in starting the Occupational Therapy program/department at some institutions. He has been a resource person for several national and international level conferences, seminars, workshops and has several publications in national/International journals. Dr Mokashi has held several offices in professional organizations and has been awarded the British council fellowship under the Colombo Plan. He also received the Kamala V. Nimbkar trophy for the best scientific paper, Fellow of academic council of Occupational Therapy (FACOT), and the Professional excellence award of All India Occupational Therapy Association (AIOTA). He has been the Organizing Secretary, for OTICON, the National conference of AIOTA. He has completed many national and international level certifications.

Further , he has held many Hospital & Administrative positions. Dr Shashindharan started his career as Physician from the command Hospital Pune and worked as a physician in various Air Force Hospitals in Jorhat, Coimbatore and Gorakhpur. He later became the Staff Surgeon to the Chief of Air Staff IAF and subsequently became Senior Advisor, Medicine and Head of the Department of Internal Medicine, Air force Central Medical Establishment, New Delhi, and then held the position of Air Officer Commanding at 7 Air Force Hospital, Kanpur

Dr Shashindharan has had Special National/International Responsibilities. He was a Member of National AIDS Control Organization (NACO) Technical Resource Group for formulation of adult and adolescent anti-retroviral treatment guidelines since 2009. Also Member of National AIDS Control Organization (NACO) Technical Resource Group for formulation of adult and adolescent anti-retroviral treatment guidelines since 2009. He is also a Member of NACO drug forecasting committee since 2015 and a Member of Armed Forces- NACO working group since 2010. And a Member of Armed Forces HIV Policy group 2010.] 2017. He was Member of Scientific Committee for the Indo-US Armed Forces workshop on HIV/AIDS, Pune, April 2007 and an Executive member of Clinical Infectious Diseases Society, India. Dr Shashindharan has been an Inspector and assessor for Medical Council of India, National Board of Examination

Dr Shashindharan has worked as a Reviewer for many key research journals, both national and international. Some of them are Medical Journal of Armed Forces India, Journal of Infectious Diseases of Poverty, Journal of AIDS and HIV Infection, Gene, Journal of Pharmaceutics and Drug Development, Global Health Research Policy, Journal of Microbial & Biochemical Technology ,Journal of Immunology and Infectious diseases ,Frontiers in Medicine ,American Journal of Managed Care.

#### **He is on the Editorial Board of Public Health Open Access**

Dr Shashindharan has been an Examiner at for: MBBS: Maharashtra University of Health Sciences - Nashik, Indraprasth University, Delhi, MD (Medicine): MUHS, King George Medical University (Lucknow) DNB (Medicine), Post doctoral fellowship in Infectious Diseases: MGR University, Tamil Nadu, DM

Dr Shashindharan has received several prestigious awards/Commendations. He was the recipient of the Chief of the Air Staff Commendation Medal: 26 Jan 2009, Chief of the Air Staff Commendation Medal: 26 Jan 2013, Visisht Seva Medal 26 Jan 2018, Fellowship of Royal College of Physicians, Edinburgh, Nov 2019

Dr Shashindharan has authored and coauthored seven books on Medicine and has contributed 57 Papers in reputed national and international Journals and has

212 citations to his credit.. He has also published 15 papers in conferences and has delivered 24 talks and presentations in many conferences and webinars.

Dr Shashindharan is an avid mountaineer and has a keen interest in trekking and has written several scholarly and informative papers in this area also.

### **What do students look forward to in your class?**

Students of medicine have to understand that learning about diseases and its diagnosis require a combination of a keen observation, insights and intuition with a scientific temperament and a sharp memory and the capacity to take the right decisions hinges on these aspects. So in my class, I encourage them to observe and emphasize strongly on strengthening their fundamental and basic knowledge of what they have learnt. Good doctors are not created by chance. They are created through good training and individual commitment and I believe in this.

### **How does your professional experience impact your sessions?**

My professional experience makes me give practical and interactive sessions and I bring all the cases that I have encountered into my classrooms because, ultimately, medicine is about treating a human being with compassion. Many doctors objectify the human body, thinking of only treating the disease. They forget that the body being treated is a person.

“

**A good teacher can inspire hope, ignite the imagination, and instill a love of learning.**

- Brad Henry

”

## **PROF. VISHWAS GUPTA**

### **DESIGNATION:**

Currently the  
Principal of D Y Patil  
School of Architecture

### **QUALIFICATIONS:**

- Graduated from Sir J.J. College of Architecture in 1986.
- All architectural projects of Shree Gajanan Maharaj Trust, Shegaon in Vidharbah, Maharashtra since last 20 years.
- Associate architect for Master Planning of the new campus of IIT Kerala.
- Has been a Member of Master plan committee Amravati University.

### **About Me :**

I believe that important task of the teacher, should not be just fulfillment of his profession, but it should exceed it and become a realization of his mission as a distributor of knowledge and education of new generations. Anyone who has embraced the role of the teacher should perform with pride, because it is an important task not only professionally but also ationally. Being a teacherby profession one has to maintain professionalism and humanity, see to it not to traumatize students, so they do not feel inferior or superior.

## What is like studying in your class ?

A teacher is a classroom manager who reinforces appropriate behavior, measure student learning and creates inclusive learning environments. Teachers are dedicated professionals who have a lasting impact on students. A teacher is one who rise to bring out the creative genius of the students and allows them to blossom with new and fresh ideas rather than just imparting knowledge in a traditional way. As a mentor and a role model, students will be inspired by your commitment to helping them develop their unique talents and intellect.

## How does your professional experience impact your lessons?

Having said this, in a professional education like Architecture the teacher needs to practice and simultaneously teach. The professional experience which I have for last 30 year helps me to connect with the students by making them understand the subject by quoting examples from my profession. Just as every patient is different to a Doctor and every client of a Lawyer is different so is the case in Architecture. The site of every project is different and needs to be dealt with utmost care considering the needs of the client and the climatic conditions along with the nature of the site.

Here comes the professional experience of a teacher. We need to make them understand the difference between the bookish knowledge and the importance of practical experience. Students always like to attain the classes of a professional because they come to know the latest trends in the profession. This makes the teacher stand out and students look upon them as their role model.

“

**A good teacher must be able to put himself  
in the place of those who find learning hard.**

- Eliphaz Levi

”

## **DR. MAHESH KUMAR HARIT**

### **QUALIFICATION:**

- Ph. D. (Ayurved Vidya Varidhi - Samhita Sidhant)
- M.D. (AyurvedVachaspati, Ayurved Samhita)

### **DESIGNATION:**

Dean & Professor

### **About Me :**

I completed my PhD. in Ayurveda Vidya Varidhi-Samhita Siddhant in 2009 and I am involved in teaching and research in my field for the past twenty plus years.

I was awarded the Maha Ayush Puruskar by the Directorate of Ayush & I-Care, Mumbai. I was also conferred with the best Academician Award by MAASD. I have numerous research papers to my credit and I have participated in several National and International Conferences.

During my participation, I have been fortunate to be involved in the capacity of a Chairperson, Co-Chairperson, Speaker as well as a panelist among several distinguished personalities of my field. An academician by profession, I have deep rooted interest in ensuring the concepts of Ayurveda are passed on to our upcoming generation in the purest form possible.

## What is like studying in your class ?

I generally write some points related to what was taught in the previous class on the board. Students can quickly revise the chapter. It can be called as warm up session. When I finish a particular topic, I ask any of the students to give a quick summary of what has been taught in the class. Thus I can keep students engaged with the lessons. This makes them focus more during the next classes. I ask students to recite important verses in the chapter after me. I develop a habit of asking questions in students in between the lessons. And also give students an open platform to raise some questions or doubts regarding what was taught. I try to make the classroom sessions more interactive. By framing questions and receiving answers, students can get a deeper view of the subject. Short projects are given to group of 5 students. I make them present their topic before class in last 15 minutes. Group learning is equally important as self learning as students can be trained to think in groups and improve their group decision making. This is another way to keep students engaged in the classroom.

Students are asked to prepare the lessons in advance by referring texts and other study materials. So when teacher discusses the lesson in the class, students would find the subject more engaging and interesting. Students will have that freedom to express themselves whenever needed which gives them a sense of peace and happiness. Keeping up a pleasant classroom environment can impact the way they grasp the lessons.

## How does your professional experience impact your lessons?

The professional experience adds a boost to the teaching skills by and large. As teaching is not only imparting knowledge but to nurture life skills of students.

Students would find it interesting if teachers can connect the subject that is being taught to incidents in real life. This also helps them to relate the subject better and gain a better understanding.

Professional course like ours is basically for capacity building and entrepreneurship developing. Incorporation of professional practice values in teaching lessons help students focus on their goals.

The ethics related to profession can only be cultivated in students if they are given examples and experiences from real world.

Case studies are a perfect example of amalgamation of professional experience in teaching lessons. A case study helps in bringing the understanding of complex issue or object. It can extend experience or add strength to the existing knowledge through first hand experiences.

Thus, demonstration of a sense of unity or cohesion between roles as teacher and professional conveys that they are professionally balanced and capable of fulfilling all of the responsibilities of the position.

“

**A good teacher, like a good entertainer first must hold his audience's attention, then he can teach his lesson.**

- John Henrik Clarke

”

## **PROF (DR) RITA LAKHANI**

### **DESIGNATION:**

**Professor and Head,  
School of Nursing at the  
DY Patil University,  
Nerul Campus**

### **About Me :**

I was appointed as the Principal of D.Y. Patil School of Nursing in July 2019. I have previously held senior academic and executive positions in two other universities (MUHS University and S. N. D. T. Women's University), including the leadership of a large College of Nursing - Fortis Institute of Nursing, Mulund, Mumbai and I am fully committed to the INC Principles of Ethical Conduct.

My teaching career spans 20 years in various faculty positions. In these positions, I have educated nurse-midwives and clinical nurses. In a dual role I have over 10 years of critical care clinical experience. I have been working as an educator and researcher in Higher Education since 2003. My higher education expertise is broad and includes the development and quality assurance of diverse health professional curricula and education innovations such as apprenticeship development with employers for the students post final year exam till they become registered nurses. I contribute to many local, national and international groups in relation to research and health professional development. I have an extensive portfolio of pedagogic and clinical research activity with professional publications in the fields of professional development and medical-surgical nursing.

In 2004, I served as the 2nd Investigator in a TNAI co-sponsored research in the State of Maharashtra. I have received the 1st Prize in teacher's category amongst all faculties at Maharashtra University of Health Sciences for Research presentation during Avishkar Convention-2010. I again bagged the 1st Prize in teacher's level amongst the Medicine & Pharmacy category at Maharashtra University of Health Sciences for Research presentation during Avishkar Convention-2015. In 2016, I was chosen to Guide 2 students from the University of Montreal to pursue their internship studies comprising research-work in India. I have published 16 papers and 11 articles till date. I have presented various papers in national and international forum (received 2 best paper presentation awards) and also have been invited to be the speaker and panel member during these forums.

I have received the Bharat Vidya Shiromani Award and a Certificate of Education Excellence for outstanding achievements and remarkable role in the field of education on December 18, 2015 at the International Institute of Education & Management and a Certificate of Outstanding Contribution in the field of Education during Asia Education Summit and Awards-2016 by Worldwide Achievers. Besides being member of various professional organizations, I am the Vice-President of Oncology Nurses Association of India and an Associate Editor for its official Journal. I am also on the Editorial Board of CPQ Cancer Journal. I am appointed as a Reviewer by Crimson Publishers, New York, USA for Gerontology and Geriatrics Studies open access journal, Nursing Research Open access journal and by TNAI for NJI.

### **Professional Impact on teaching-learning**

My professional experience has nourished me over and over again with the belief that the only method that works in teaching-learning is the one that addresses learners' needs. If you do not address learner needs, it won't matter one bit even if we have to follow famous teaching Gurus. I personally think that students' proficiency level, their learning needs and goals, and the teaching goals should all be taken into consideration before we decide on the teaching methods. Also, many methods should be used integratively in one course, since different methods work for different students. Additionally the learning environment begins to spark, since I have a good self-awareness of myself and I always prepare myself for a productive dynamic interaction.

Further, I discovered two strategies working in an optimized way. The first consists in using pictorials since the visual and thematic learning mixed together multiply their effects. Then the use of theta and alpha states which, plugging the critical mind, wipes out the resistance. The mind is imprinted more easily, and theta states are known to favorize problem solving nearly effortlessly.

In my experience, only 5-10% of my students master the material by the final exam. And even my best students tend to quickly forget most of what they have learned. Thus, I don't always turn things into robotic sequences, but perform highly interactive instruction, using micro-tests – single problems – to determine students' weak points and help students learn to fix those points. Since filling my students with life-long knowledge is my top priority, I enhance my thoughtful lectures with catechisms. I make the students chant aloud with me so that they register what is emphasized. I often break every lesson into baby steps, and drive the students to master them sequentially. I randomly and mercilessly put students on the spot, pressing them to apply the lesson aloud – and correct the slightest misstep. We meet six days a week for an hour, endlessly recapping what we've learned. For Sure, I have done the grounding for them to know the basics for a lifetime and further branch out.

My students feeling towards my session is mixed; there are students who look forward to interacting and growing with me; they feel blessed and enriched; whereas on other hand I do have students who wish to have fun, fun and more fun, which challenges to me now to blend a little bit of humour and fun in my teaching. So as teacher I become a life-long learner and want my students to yearn for more education and to take charge of this endeavour themselves; as I celebrate and showcase their learning and growth.

“

**A good teacher must be able to put himself  
in the place of those who find learning hard.**

- Eliphaz Levi

”

## **SUJITH GOPINATH**

### **DESIGNATION:**

General Manager of  
Meluha The Fern

### **What is it like studying in your class? What makes your class unique ?**

My lectures are interactive sessions in which I encourage students to explore various nuances of the hospitality industry. My teaching is case study oriented as I feel scholastic knowledge must be accompanied by real life examples for a comprehensive learning. I also use a lot of audio-visual aids in my lectures to enhance the teaching-learning experience. Students are open to ask as many questions as they want, and I ensure that all their queries are answered to their satisfaction.

### **How does your professional experience impact your lessons ?**

I feel that a blend of Industry and academics is a must in order to impart wholesome education. Scholastic deliverance is essential and when it is clubbed with professional expertise it lays the foundation of creating a thorough professional , who gets absorbed easily in the industry. I come with an experience of more than 27 years in the industry , I have worked with different departments at various levels, the experience that I have derived from these have a major part on my lectures. I give real life examples to students which ensue an interactive session on class, and contribute massively in better understanding for the students.

“

**A good teacher must know the rules; a good pupil, the exceptions.**

- Martin H. Fischer

”

## **DR. DEEPAK LANGADE**

### **QUALIFICATION:**

- MBBS, MD (Pharmacology)

### Pharmacology teaching-learning at D Y Patil University:

The subject of pharmacology is constantly advancing due to newer drug approvals, emerging evidence and technologies.

The teaching learning process at D Y Patil University is focussed towards better understanding of the subject rather than mere processing of information.

In addition to traditional teaching-learning methods, we help students by facilitating learning using state-of-art audio-visual aids, computer simulation models and mannikins for various techniques and procedures.

Efforts are made by the highly motivated faculty to make the learning process more interesting and objective.

We follow competency-based curriculum in our courses with use of problem-based learning (PBL) methods which prepare students for better clinical practice.

Our industry experience helps us formulate the curricula to prepare our students in their clinical acumen, community needs and global challenges for the future. This helps to bridge the gap between theoretical knowledge and real-world.

“

**A good teacher must be able to put himself  
in the place of those who find learning hard.**

- Eliphaz Levi

”

## **DR KAILASH K JAWADE**

### **QUALIFICATION:**

- MS, DNB, FMAS, FIAGES, FALS
- Fellowship from Taiwan and South Korea

### **DESIGNATION:**

- Prof and Head of Unit, Department of Surgery
- Head of department, Department of Allied Health Sciences

### **SPECIAL WORK :**

In-charge for Transplant programme of D Y Patil Hospital

Dr Kailash Jawade, a General Surgeon, is young, dynamic, versatile surgeon. After doing his masters training in General surgery from SRTR Medical College Ambajogai in 2001 he underwent rigorous clinical trainings in endoscopy, laparoscopy, hepato-biliary surgery and multi-organ transplantation from Delhi, Chennai, South Korea and Taiwan. He had worked with many eminent surgeons and experts.

In his 18 years of surgical practice he has done various complex GI- HPB procedures, diagnostic endoscopies and laparoscopic procedures independently. He was actively involved in more than 300 kidney and 300 liver transplantation and currently key person in developing transplant programme of DY Patil Hospital. Apart from his clinical work he is interested in research and academics. To excel himself further he is undergoing PHD in Surgical Gastroenterology.

Currently Dr Kailash is heading a unit at D Y Patil Hospital. Under his unit all complex procedures are carried out recently he has done successful liver left lobe removal surgery (Left hepatectomy) for hemangioma. He has also done first laparoscopic Fundoplication surgery for hiatus hernia.

Apart from clinical work he is interested in academics. He has started physician assistant graduate training programme (BSc PA) in department of Allied health sciences. He is heading department of Allied Health Sciences at DY Patil School of Medicine and trying hard to standardise 15 different courses conducted under this department. Dr Kailash is post graduate teacher and is planning to start multicenter fellowship programmes in the field of HPB Surgery, Colorectal surgery and Laparoscopy.

Dr Kailash has social and spiritual bend of mind. He himself has come from rural area and poor socioeconomic background. He, therefore, understands problems in the society and wants to do something for the society. Through NGO DOST (Dhanwantari's Organization for Socio-health Transformation) he is doing social work since 2001. In collaboration with D Y Patil Hospital, DOST Mumbai conducts special organ donation awareness programme during Pandharpur pilgrimage, popularly called as Avayavdan Dindi and DOST Instavari.

Dr Kailash conducts yearly surgical camps in Palghar district. Up till now total 8 camps have been done through which around 2000 patients got operated. These camps give unique opportunity for the students to work and learn practical clinical skills. While taking clinical lectures and classes all these factors make his lecture special and memorable for his students.

# RESEARCH

If you are fascinated by the unexplored & keen to take the road less travelled, you will feel right at home at University, in a committee that is actively creating new knowledge. We are renowned for the wide-reaching impact of our research. We are justifiably proud of our research teaching links, which means by studying with us you will encounter the latest thinking in your subject.

Our abundant research opportunities enable you to push the limits of your own intellectual curiosity with support from some of the world's top academicians. Taking Part in research also enables you to develop valuable skills that you can transfer into the workplace or use in further study.

All our courses offer opportunity to complete research projects, whether that involves groupwork on completing an individual dissertation. You can also participate in cutting edge research outside your degree adding in extra dimension to your studies allowing you to follow your curiosity beyond the curriculum.

Ground breaking projects, meaningful release & research that changes the world. A lot happens at our campus and anything is possible when the right individuals get together.

# — THE BUZZ BEGINS HERE

You only have to set foot on our campus to sense that it is buzzing with activity. From award winning students to great sports facility, lively events & concerts, believe it there is so much to experience that your only challenge is to finding the time to fit everything in.

We offer you the best of both worlds- state of art learning facilities within minutes of a world class city; set against beautiful green spaces to relax and socialise in. We build our campus with everyone who uses it in mind, body and spirit. Our students, faculties, staff, businesses, industry, local residents create a space where everyone feels welcomed.

Our campus is home to students and staff from all over the world. It is this inclusive & cosmopolitan atmosphere that gives the campus its vibrancy and characteristic buzz. We provide a welcoming environment that's safe but never dull. We are a place where you can be yourself & foster long lasting friendships.

We are a place to belong . A place that pulsates with possibilities & opportunities to do the things you love doing & enjoy new experiences. There's the physical space, a welcoming campus designed to make living easy, so you can both study hard & relax. Our facilities are designed with your intellectual development in mind. Since we are a young & ambitious university, you will witness these facilities endlessly grow in scale & audition.

You enjoy all the freedom of being independent, but with the security of being surrounded by people who can support you and share your experience. Our friendly & 24\*7 security team is consistently recognised & appreciated for their efforts in keeping everyone safe on the campus. With everything you need close at hand, you can get started with enjoying student life both inside & outside lecture theatres. Accommodations, Academic Departments & Campus Facilities are all within easy reach. And to really give you the most from your university experience, you can readily access place to relax, to unwind, to work & to laugh.

A place is more than just a physical destination. It's about fun, community support, being surrounded by friends, classmates, collaborators & explorers. Our campus is not only a physical space. It is a base to explore, offering the fluidity to enjoy an experience that is not tied to a location or limited by rural solitude. Over the years we have invested in our buildings, facilities & industry standard equipment so that you can start on your career path with the working knowledge of the practical concepts that you will be facing day to day. We have got ambitious plans for the future too as our campus continues to evolve and grow.

# — ACCOMMODATION

LIVING HERE, FEEL AT HOME

“

The Hostels have everything that I was looking for. I have made special memories and friends here.

”

“

We know that finding somewhere convenient & cost effective to live is a top priority for all students & we give it equal importance.

”

We guarantee campus accommodation for all, provided you have accepted an offer from us as your firm choice & you apply for accommodation by the deadline.

We confirm after you accept our Terms & Conditions.

Each one block has its own common room with a central social area, while our newly refurbished central hub, offers excellent gym facilities, quiet reading corners, cafes, library, alongside security & student services. We have a Wi-Fi campus.

All our campus accommodation is self-catered with well-equipped and hygienic kitchen to cater to all the food required.

Our students have academic ability and intellectual curiosity in common. But that is pretty much it. There are hundreds of students across the globe with an amazing range of background & interests, so you will meet people like you and not like you.

This is likely to be one of the most liberating aspects of your student life here.

University can be daunting at first. And joining one or more of the 100's of group on campus is definitely one of the easiest ways to make friends, feel at home & build your support network.

## DINNING FACILITY

### GASTRONOMIC EXPERIENCE

Our restaurants & cafes offer something for all appetites, from cakes, coffees, to multi cuisine dishes & fusion foods. We cater to all dietary requirements. There are also regular theme parties at the cafes focusing towards a particular cuisine.

Mealtimes on campus are exploratory occasions to sample a new dish from the global culinary palette. We offer diversified cafes, restaurants on campus. There is also a prime time to get to know your classmates, test a line of reasoning for your upcoming project or float a few options for the next band to bring on campus. With a common dining facility for each hostel complex, the University dining meets you where you live.

# SPORTS FACILITIES

## THE SPORTING SPIRIT

The Sports scenario at the campus is enormous. Whether you want to improve your health, try a new activity, become a coach / match official, train for competition or represent the University at your sport, we can help you to achieve your goals. There are a wide range of sporting activities for you to choose from. Just about every sport you can think of is catered for.

There are college teams offering opportunities for novices and experts alike, to compete in Intercollege leagues and cup competitions. Alternatively, you may want to try out for one of the University teams and represent the University against other teams. The University state of art sports Academy provides all sports from badminton to football & more. The gym is equipped with latest cardio vascular and strength training equipments.

# IN & AROUND UNIVERSITY

Mumbai and Navi Mumbai a city is full of history, culture and places just waiting to be discovered and explored. Here's just a taster of what the cities have to offer...

## PLACES TO VISIT IN NAVI MUMBAI & MUMBAI

### Pandavkada Falls, Kharghar

Pandavkada Falls is a famous waterfall located near Kharghar, standing at about 107 metres high, through which immense amounts of water gushes, the motions of which has carved the rock formations below. Legends have it that the falls derived their name from when the famous Pandavas bathed. Due to its history, the waterfall attracts the likes of trekkers and history enthusiasts.

### Rain Tree Marg, Belapur

The road is a stretch on the way to Kharghar Hills. As the name suggests, Rain Tree Marg gives its visitors a picturesque view of Navi Mumbai, especially during the monsoon season. Due to its ethereal beauty, the road attracts the interest of motorists and people who are looking to spend some quiet time. You can choose to wait and marvel the beauty of the road or take a 15-minute ride up to the hills.

### Gateway of India, Mumbai

Gateway of India, the best place to visit in Mumbai, was built in 1924 by George Willet to honor the visit of King George V and Queen Mary to Mumbai. Visit this place in the early morning or late evening hours to enjoy the cool breeze of the sea with your family sans the crowd. Located next to the iconic Taj Mahal Palace and facing the vast Arabian Sea, the Gateway of India leaves you spellbound in every way possible. Take a ferry ride offered here to experience a stupendous view of this monument right from the sea and you can also visit other main attractions nearby.

### **Chhatrapati Shivaji Terminus (CST), Mumbai**

Chatrapati Shivaji Terminus is another UNESCO World Heritage Site situated right in the heart of Mumbai. Built in the year 1888, during the British colonial period, this edifice exemplifies the Victorian-Gothic style of architecture. While you are here, don't forget to take a photograph with your family and kids. And guess what, the magnificent CST is the most photographed building in India after Taj Mahal! And once you are done with sightseeing, don't forget to treat yourself and your dear ones to some lip-smacking food. Whether you are looking for budget restaurants, fine diners or buffet places, Mumbai has it all. Want some great ideas? Read our blog on the top restaurants in Mumbai.

### **Nehru Center, Mumbai**

Built in the memory of Pandit Jawaharlal Nehru, this center propagates his teachings and ideas through educational and cultural programs. It consists of a spectacular dome-shaped planetarium that creates curiosity about astronomy and science in young kids. You can stargaze with your little ones at the sky theater for a memorable time. Make your kids stand at the cubicle that calculates their weight in each of the nine planets of the solar system. Other attractions here, such as the miniature galaxy with Sun at the center, Moon's surface, a view of Earth from Moon, art gallery, library, etc. will surely get your kids charged up with energy and intuitiveness.

### **Hanging Gardens, Mumbai**

Every relationship deserves a break from monotonous daily routines. Take your significant other to this amazing Hanging Garden and unwind and slacken yourself amidst the flower beds, spectacular water fountains, and lush green animal shaped hedges. Don't miss out to take a funny picture with your partner at the giant boot structure here, known as the "Old Women Shoes". What else can be more romantic than this?

### **Imagica Theme Park, Khopoli**

Imagica is the highest rated themed destination in South Asia on all social platforms. Imagica has 100+ attractions, themed shows, and indoor & outdoor attractions offering something for all ages and interests. Imagica has 3 large parks- Theme Park, Water Park, and Snow Park – spread across 132 acres, creating India's favourite entertainment destination.

# MENTORING

If you need a bit of extra support while at the university, we have an extensive welfare system in place. There are various university services and within your college community you have a number of people looking out for your academic and personal welfare and supporting you through out your time at the University

## STUDENTWELFARE

Your councellers of admissions are experts in your subject and usually a senior faculty of your college whose main duty is teaching and administration. Appointed to look after your academic welfare they :

1. Advise you on your subject and course choices
2. Help you understand your Time Table
3. Monitor your progress and help with any problems arising from your studies.

They are also involved in the admission process and the usually conduct interviews.

## COLLEGE STAFF

All colleges have a variety of people you can turn to for medical or personal support such as a nurse, counsellor, or your senior faculties.

## COUNSELLING

The universities counselling services offers a free and confidential service to all students at the University. Professional counsellors, mental health advisors and the University sexual assault and harassment adviser are available to talk through any personal or emotional concerns that you might have during your time at the University.

# EASY FINANCE AVAILABLE

Bank Loan Facilities

Guidance given to students about UGC Education  
Loan for students - Vidyalaxmi

# GETTING ONTO CAMPUS

## BY AIR –

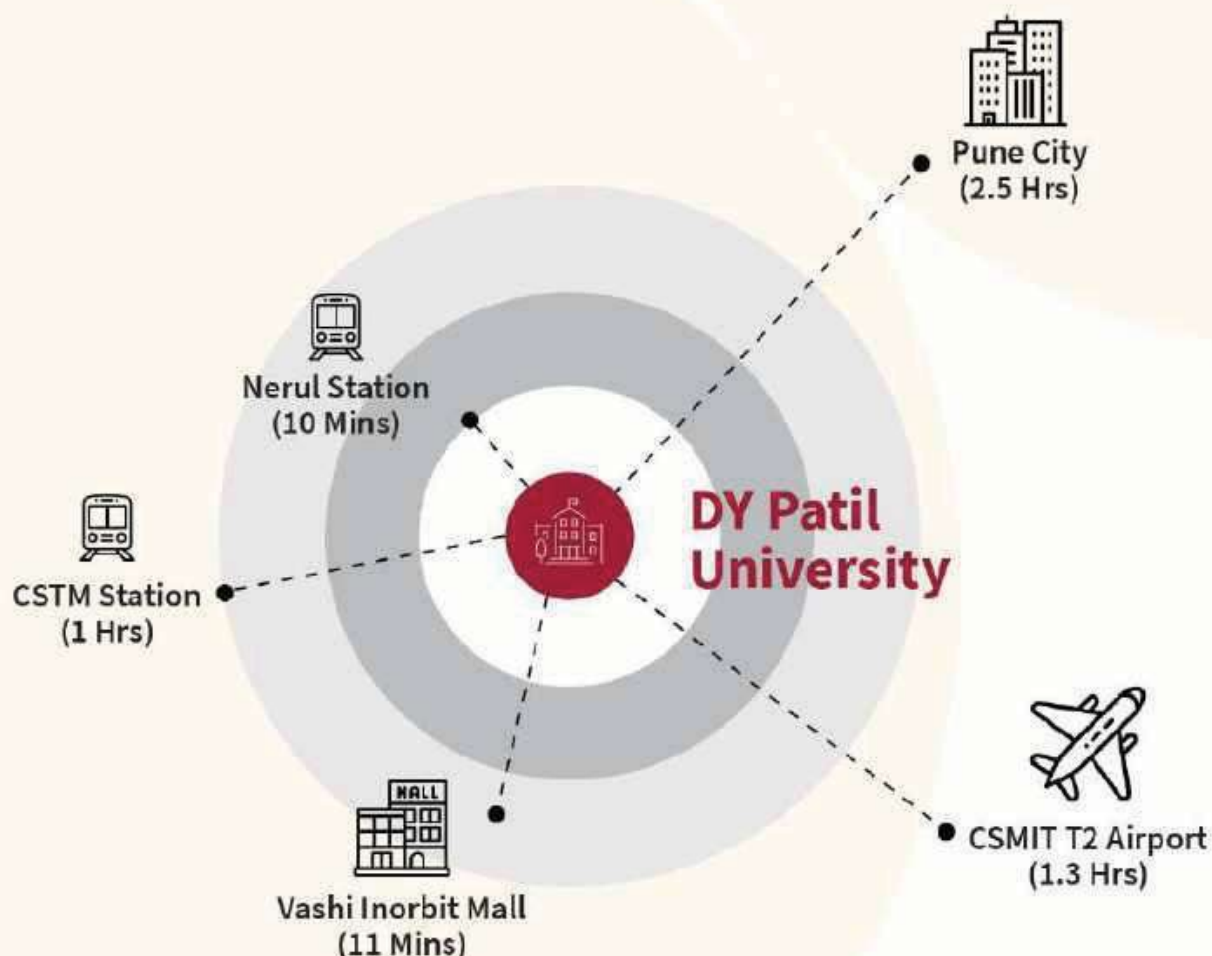

Mumbai is the commercial hub of the country and hence it is well connected by Air with all the major cities in the country & various International cities.

## BY RAIL –

One of the biggest Metropolitan cities of the country, Mumbai has an extensive rail network that is widely spread. It has train connectivity with each and every corner of the country making the city extremely accessible via Rail.

## BY BUS –

All major bus depots in Mumbai & Navi Mumbai have well connected bus routes which can ferry students from any part of the city to the campus well within time. There are well appointed AC buses on several routes.

# MOVING AHEAD

Fulfil your potential and carve out a rewarding career path. We will help you develop the skills and knowledge that will propel you further.

Studying at DY Patil University opens up a host of opportunities to build, or develop further, a career that will inspire you and fulfil your ambition.

## University of International Repute

We are ranked first by Tech Next India 2019. We are ranked 8th by GHRDC survey 2019. We have 50000+ alumni across the globe with well established careers.

## Earning Potential

On leaving the University, our graduates excel within challenging and rewarding careers. The average mean salary of all our graduates who study with us is the most competitive in the market.

## Connect with Top Employers

We work proactively with a wide range of employers, from start-up organisations to multinationals across all job sectors, meaning you can build connections that help you get ahead. Nearly 350 plus employers are welcomed onto campus each year to participate in skills sessions, presentations and career fairs, enabling you to network easily.

## CAREER SUPPORT

We offer personalised support to help you develop your skills, plan or develop your career path, and get experience. You can access the support services at any point during your time on campus and after graduation.

- Guidance from departmental career consultants who have an in-depth understanding of the subject
- Help with job applications and interviews
- Arrange workshops to help develop your skills, including enterprise, study skills, and job application and interview techniques
- Access to thousands of employer vacancies targeted at DY Patil University students and graduates

- Many opportunities to gain paid or voluntary work experience

- Academic and professional development

- Support in developing your academic practice if you are considering a career in Academia through our extensive range of workshops, events and one to one support

## WORK EXPERIENCE

There are many flexible employment opportunities on campus and with local employers. Through our internship and placement cell, you can apply for single shift, work on particular days of the week, or work full time over several months.

# ADVISORY BOARD

Let's meet some of the industry stalwarts who are with us as expert advisors. They mentor the students and bridge the gap between industry & academia.

The ability to think in an agile way is at the heart of our approach to teaching & learning. Our community of experts provides the intellectual space for you to ask the questions that will help tackle the biggest challenges of 21st century.

You'll also have the freedom to answer those questions by searching beyond the subjects you choose to study. Our Advisory Board members will welcome your ideas and will appreciate your curiosity for learning something new.

You'll be encouraged to take modules outside your core subjects which means you'll broaden your learning in new & exciting ways. By grasping every learning opportunity available to you at our University, you'll work alongside us to take your knowledge further.

# PLAN YOUR CAREER

Your future plan is all about supporting you to become the best graduate you can be, so when you leave you feel ready for your next step. On graduating, you will find yourself in high demand among employers. As a student you will find hundreds of exceptional professional development opportunities you can take up alongside your degree.

## A first Class Internship & Placements Cell

**Practical Skills Development** - Courses and Workshops to boost your capabilities, commercial awareness, internship opportunities and job readiness.

**Professional Consultants** - Providing tailored advice via face-to-face appointments, group workshops, phone and online assistance.

**International Focus** - We have relationships with global employers and leading multinational recruiters, organised bespoke country specific events, and can offer advice on the global job market

**Graduate Network** - We help you connect with our 50,000+ alumni from across 70 countries who will help you to find and guide a good career path.

## Gain Professional Experience

Our close contacts and research collaborations with companies and major employers means we can help you find a variety of industrial internship and placement in destinations across the world.

**Year in Industry** - Many subject areas University offer degrees that incorporate the years spent in the world of work as Industrial Internship.

**Work Experience as part of an optional course unit** - Many courses allow you to take inter disciplinary course units run by the university as part of your degree, some of which include hands on experience working in the industry or in the community.

**Placements & Internships** - Our placements and internships cell regularly guide you on the many Internship & placement opportunities that you could take outside of your studies, and it can offer you advice and support in approaching companies directly too.

## What it means for you

**Get a foot in the door** - Some of our internship students make such a positive impression that they are offered a position soon after they graduate.

**Network** - Making personal contacts in your field can be invaluable for getting support in your career.

**Develop transferable skills** - Demonstrate that you can apply academic knowledge to the working environment.

**Earn as you learn** - Most internship, placements and work experience opportunities are paid

“  
**I think the success of any school can be measured by the contribution, the alumni make to our national life.**

- John F. Kennedy

”

## INSPIRING ALUMNI

The University is bound together by a deep rooted sense of community and shared purpose. The commitment to excellence in education, learning and research is uncompromising, and lived out in practice every day in lecture theatres and supervision rooms, libraries and labs.

*"My days at the University offered me the precious opportunity to challenge and deepen my knowledge. They also provided the space and the time to broaden my intellectual horizon, allowing me to read voraciously and widely, and to interact with One of the most stimulating and diverse group of people I have ever met the staff and students from around the globe."*

At the University we continue to reach our hands outward. As we do so we welcome an ever more diverse group of students who have the desire and ability to learn and produce new insights that shift and deepen our understanding of the world around us.

# ALUMNI

Our extraordinary community of students with bold, brilliant and inquisitive minds go on to discover and achieve remarkable things across the globe. Over Lakhs of our alumni live in more than 70 country worldwide.

Our online community is an exclusive DYPU platform that enables you to connect with alumni from over 70 countries. Whether you are seeking professional advice or want to explore a particular career path, dedicated industry networks, international group, and global network of experience our alumni are ready to support you.

We run regular program of alumni networking, business and social events. Many of our alumni have established highly successful career and picked up national and international awards.

## Sandeep Suvarna

He completed his post graduation from School of Management and kickstarted his career as an investment banker through campus placement. He has worked with leading investment services and is also a panellist for National as well as State Level Investment Committees.

## Abey Kuruvilla

Former Indian Cricketer  
Class of 1991

The towering giant, Abey Kuruvilla, bowled with diligence and devotion for Mumbai in the domestic circuit. However, he got the chance to represent India late in his career. He still made cricket experts and fans alike sit up and take notice of his exemplary control and his ability to work out the batsman. He also had a well-disguised off-cutter up his sleeve. Kuruvilla, who was coached by none other than the former England fast bowler, Frank Tyson, rose through the ranks quickly and played for Mumbai in the 1990-91 season. In the next season itself, he snared more than 50 wickets in First-Class cricket. Unfortunately, his credentials as a bowler was ignored by the national selectors for the next 5-6 years.

## Amol Otavkar

International Resource Manager, Siemens  
Class of 2002

More than 9 years of exposure in SPPA-T3000, SPPA-T2000 (Teleperm XP), Teleperm ME, S7 PLC and S5 PLC. ## L LAW

The school allows students to see law in its historical and social context and to examine its general principles and techniques. Although our course is primarily concerned with law there are opportunities to study other legal systems including civil law international law and so on. You can also study theoretical and social logical aspects of law such as jurisprudence or parts of criminology.

The present faculty teaching staff has expertise across nearly every aspect of law and its history as well as international and civil law, legal philosophy and criminology. The faculty building houses lecture theatre, seminar rooms and moot courts, as well as the library of varying and extensive collection of printed and electronic resources and excellent computing.

The faculty organises numerous activities including formal meetings, informal lawyer social events, lectures and moot courts for giving an idea of how hypothetical legal cases are handled.

### **About You :**

As a law student you will be taught by research active and supportive academic staff, in programs developed in close consultation with the legal profession.

You can specialise in range of subjects including human rights & clinical legal education. You will benefit from stimulated trials and tribunals and you will learn how to interview clients and how to use legal reasoning and communicate and present arguments effectively in and out of the court.

## About us :

We are a prominent centre for innovative multidisciplinary research that supports and reflects the interest of many leading academics based here, as well as those of our influential partners.

Our research activity directly influences our programs that support flexible learning, offer great choice and the opportunity to excel, both in developing your own talents and in influencing the world around you.

## Why Should you Choose Us?

### **We prepare you for your future career in legal professional practice.**

We combine over hundred years of teaching experience with modern approaches to learning and will encourage you to develop your professional skills through the supportive activities of the DY Patil Law school, our in house legal practice and our dedicated employability team. Our Moot Courts offer a final year students the opportunity to develop professional skills by representing real clients under the supervision of the in house legal team of practicing lawyers.

### **Build connections with local professionals.**

Our professional mentoring scheme allows you to build networks and connections with the legal profession from the start of your degree. You will be assigned to a local lawyer who will act as your mentor to provide career advice and assistance on an individual basis throughout your studies.

### **Learn from internationally renowned lecturers who are actively engaged in cutting edge research.**

This research culture allows our students to be a part of an innovative and stimulating environment and offers the chance for you to make original contributions to law and policy debates.

### **Fulfil your potential in a supportive environment.**

During your time at the University you will be assigned an academic adviser, who will be available to support you with your personal academic development.

### **Study in a diverse and inclusive academic environment.**

We are immensely proud of a diverse student community and inclusive learning environment, welcoming students from a wide range of backgrounds and from all over the world.

### **Learn about law with a social justice ethos**

Social justice is at core of our ethos. We teach law as a socially relevant subject rather than simply as an abstract academic discipline, and believe that this gives our students a fuller appreciation of the law's capacity to deliver justice, redress grievances and achieve meaningful social change.

---

“

Law provides the framework for economic and social life, and for relationships between state governments and individuals. At Law School we pioneered an approach to the study of law that looks at legal rules in context to examine their social, political, and economic effects.

”

## Where can this take me?

The majority of our graduates enter the legal profession. However others have embarked on careers in civil services, banking, construction, charities and international non-governmental organisations, business management, academia, the armed forces, accounting and finance and the police and emergency services.

Join a law school that provides an intimate and engaging student focussed learning. Give the skills you need to excel within or beyond the legal profession. If you are an original and creative thinker who is articulate and appreciate that there can be many sides of an argument, you are determined to reach your full potential and want a degree that will help you develop the skills you need to embark on a successful career. You may aspire to become a legal practitioner or decide to use those transferable skills to succeed in any one of the wide variety of professions that law graduates pursue after universities. These include business, finance, journalism Government, and other charitable trusts.

We are a law school that aims to make a difference for our students and the wide world. As a student you will benefit from excellent teaching and a strong emphasis on pastoral support .

You will make a real contribution to the world through our influential research in a wide range of fields including commercial law, competition law, the law of public protest, internet and media law, law and medicine and the aspects of constitutional law.

We are proud that our students are also able to contribute to the society through their work.

## Your Career :

Our programs are designed to further your law career and maximize your career opportunities and our graduates are highly sought after by law firms and other employers. Studying law offers you the chance to build the foundation of your legal or professional career in an innovative and supportive environment. From the start of your degree you will benefit from access to establish connection with local legal professionals and be encouraged to engage with real clients and case work, under the guidance and support of our dedicated law faculties

“

I didn't really know what it means to study law when I started and I thought that I would just be endlessly learning statutes and cases by heart and nothing more. Thankfully I was wrong, there is obviously still a lot of learning and reading to do, but you learn to start looking at the world differently and gain more understanding about why things are the way they are and not just what the law says about an issue.

”

# D

## DENTAL

Dentists' oversight of the clinical team is critical to ensuring safe and effective oral care. Even seemingly routine procedures such as tooth extractions, preparing and placing fillings or administering anesthetics carry potential risks of complications such as infection, temporary or even permanent nerve damage, prolonged bleeding, hematomas and pain.

Dentists are doctors who specialize in oral health. Their responsibilities include:

- Diagnosing oral diseases.
- Promoting oral health and disease prevention.
- Creating treatment plans to maintain or restore the oral health of their patients.
- Interpreting x-rays and diagnostic tests.
- Ensuring the safe administration of anesthetics.
- Monitoring growth and development of the teeth and jaws.
- Performing surgical procedures on the teeth, bone and soft tissues of the oral cavity.

### More than Just Teeth and Gums

Dentists' areas of care include not only their patients' teeth and gums but also the muscles of the head, neck and jaw, the tongue, salivary glands, the nervous system of the head and neck and other areas. During a comprehensive exam, dentists examine the teeth and gums, but they also look for lumps, swellings, discolorations, ulcerations — any abnormality. When appropriate, they perform procedures such as biopsies, salivary gland function, and screening tests for oral cancer.

In addition, dentists can spot early warning signs in the mouth that may indicate disease elsewhere in the body. Dentists' training also enables them to recognize situations that warrant referring patients for care by dental specialists or physicians.

### **Exercise creativity in your daily work.**

Dentistry is often referred to as an art. It requires mastery and technique unique to the profession. Dentistry is largely based on maintaining proper oral health, but is also an aesthetically focused practice. A large part of dentistry involves restoring teeth and making a smile beautiful, one that the patient is happy to show to others.

Provide benevolent care to communities. With an annual income well above the national norm, combined with a flexible work schedule, you will get the privilege and ability to provide oral health care to those communities and populations that desperately lack access and affordability.

### **About You :**

As Dentists , you will be practitioners of Oral Health for the community. You will Restore the oral health and transform the lives of your patients. Whether it is providing preventative care, delivering dental restorative procedures, eliminating pain or correcting dento-facial esthetics, you will experience the satisfaction, privilege and joy of positively transforming a patient's life by restoring oral health. Be independent in your careers.

You have the opportunity to own your own businesses right after dental school. This gives you a lot of independence and allows you to set your own business and career goals.

Choose from a number of career options. While 80% of dental school graduates go into private practice in general dentistry, the profession offers a wide range of clinical, research and academic opportunities to both new graduates and dentists at any stage of their careers.

### **About Us :**

At our school, we will train you to be an exemplary dental professional. With over 500 clinical dental chairs and a busy dental hospital onsite we can offer you first-rate clinical training complemented by innovative learning studios that feature interactive.

### **Why choose the School of Dentistry?**

**Enjoy tuitions from practicing clinicians.** You will be taught by experience practicing clinicians so you can be confident you graduate as the complete dental professional.

**Benefit from supportive research informed and innovative learning.**

The institutes research directly influences your teaching. Our unique online assessment system lets you plan your study, review progress, get feedback and log your own impressive e-portfolio of work. This responsibility for your personal learning and progress, and for the management of your patients' care are vital skills for your career.

### **Study in leading facilities.**

Your clinical training is complemented by learning studios, that feature simulation and interactive technology including 500 clinical dental chairs, a dental hospital which managers over 7000 patients attendance.

### **Strengthen your career with hands on experience.**

We focus on developing your ability to provide holistic patient care in the context of the primary care services .Our problem based approach and excellent network of clinical placements means that alongside academic and professional skills, you will gain practical experience and apply your knowledge early in your studies, preparing you to become an excellent dentist from day one.

### **Your Career :**

The majority of our graduates choose general dental practice within various Government Hospitals & in the private sector while others might choose one of the hospital specialities, the community dental service ,University teaching or the armed forces.

# A

## ARCHITECTURE

Architectural engineers are key members of any multidisciplinary building project team as they have the skills and knowledge to apply engineering principles and technology to building designs construction and management. Changes to the Building regulations and the requirements to become more sustainable requires professionals with the skills and knowledge to contribute to, and lead, teams involved with low carbon buildings of the future.

This course will allow you to make use of advanced tools and technologies that enable high quality architectural engineering solutions to be produced and applied. You will be a part of the vibrant multidisciplinary learning environment working with students from a range of other built environment disciplines in the design and construction sector. You will engage with the built environment industry on real-world projects led by Industry

Professionals. Our vision is a world where everything that's built aims to add to the wellbeing of people and the environment. Through forward thinking and cross-disciplinary education and research, we seek to encourage more innovative, collaborative responses to the world's challenges from those involved in the creation of our cities, towns and settlements. In our own community and in society at large we value creativity, integrity, equity and autonomy in the development of a sustainable diverse world in which we all can live.

## About You :

As an architecture student you learn to design, build environment that recognise indigenous values and address India's rapid population growth as well as global issues like housing, affordability global warming and homelessness. You will be taught by professional architects as well as professionals with backgrounds in design, engineering, computer science, creative technologies, media business and entrepreneurship you learn in an interactive environment , where you collaborate with your classmates and experts from different disciplines to find innovative solutions that support community well-being and nurture future generations.

## About Us :

In our Architectural and Interdisciplinary studies program allow you to tailor your own degree and are ideal for students with multi-disciplinary skills who enjoy making cross curricular connections. The degree enables you to combine your studies at the School of Architecture with modules from across the University, including anthropology, languages etc to name of few popular choices. The 4th year offers an additional opportunity of studying abroad at one of the University's partner institutions.

Architecture teaches student the skills to practice architecture and an understanding of how to use your skills imaginatively in different contexts. Architecture is taught by leading practitioners and academics, in studios and workshops designed for creative flexibility and idea generation. Alongside design teaching you will take core modules in technology, history and theory as well as professional studies.

With the major demographic shift towards urban living in the world's population, planning for sustainable urban development is a significant global issue. Based in one of the most exciting urban centres in the world, our degree programs develop skills essential for the stimulating career destinations in this field, with interactive hands-on learning (group projectwork, laboratory sessions and site visits ) which is our USP at the DY Patil University.

You will develop your design creativity and professional practice skills in a landscape studio environment using challenging real- life sites often informed by client-driven briefs. Be inspired to create high-quality resilient 'places for people'. A mix of theory design work and professional practice provides a stimulating learning environment.

You'll focus on creating landscapes for sustainable living in the future, balancing scientific understanding with aesthetic and functional design. Open-plan studios emphasis the collaborative and exploratory nature of professional landscape. You develop design creativity through international trips to various countries.

Architecture has a long tradition of excellence in architectural education and research. You will be taught by experienced professionals leading academicians and world-class researchers whose work is recognised by renowned architectural bodies.

## Why choose the School of Architecture ?

### **Benefit from our research-led and design focused teaching.**

Our researchers are internationally known in their fields. Their work is diverse, extensive and wide-ranging and shares the aim of furthering knowledge and improving architectural design.

### **Be inspired in a dynamic City setting.**

With its impressive architectural heritage and award winning contemporary architecture, the school provides an excellent backdrop to our teaching on the design of cities and involving urban conditions.

### **Support your creativity with solid practical skills.**

We focus on producing architecture graduates to balance imagination and creativity with real world knowledge and skills.

### **Allow your creativity to flourish.**

We do not have a house-style ,but instead encourage students to develop their own design methodology based on understanding of history, technology and architectural theory.

### **Thrive in our studio environment.**

Our award winning studio spaces, stimulate creativity and reflect the working environment of architects in practice. We recently invested in refurbishment of some of these spaces to ensure that our facilities meet the highest standards.

## Your Career :

Our graduate work for a range of major international architects, in publishing, the Arts Council and multi-disciplinary think tanks. Most recently graduates have found success in designing some of the most renowned architectural buildings and are connected with construction industry and property developments.

# N

## ALLIED HEALTH

There is an increasing realisation on the importance of allied health personnel in the health sector, especially in accident and trauma care. Allied Health professionals are a boon to nursing homes and a dream for students, who have not been able to become full-fledged medical professionals. Health care delivery systems are undergoing rapid changes and the demand for skilled paramedical personnel is on the rise.

Almost all the diagnostic procedures are carried out by the allied health sciences staff and they have emerged as a vital cog in the wheel of the health care delivery system. The population explosion coupled with the mushrooming of private and corporate hospitals has provided numerous opportunities for skilled paramedics.

Now, what's important is to know more about such 'Professionals' who do a Blood Test or a massage or a therapy and aid the doctor for better treatment of the patient & hence make health care easy and effective. These Professionals are called as "Paramedics" or Allied Health Professionals.

### About You :

The realm of medicine is incomplete without trained, equipped and expert allied health staff. You will be trained in different nuances of health care and will be performing some vital functions. You can specialize in a field of your choice and build up a rewarding career therein.

The increase in number of patient's variety of diseases and the demand for immense treatment has paved the way for Paramedical Professional who are expert vtechnicians/therapists that are essential for effective healthcare and treatment.

## About Us :

School of Allied Health Science is committed to nurturing skilled allied health professionals. The school offers a variety of programs that train students in different avenues of medical sciences. These programs are complimented with extensive hands on experience, as the students have postings in the hospital on a daily basis. The courses also comprise of a compulsory 1 year internship.

The school offers courses in :

- **Radio Imaging**
- **Medical Laboratory Technology**
- **Cardiac Perfusion Technology**
- **Cardiac Catheterisation Technology**
- **Kidney Dialysis & Transplant**
- **Anaesthesia Technology**
- **Central Sterilisation & Infection Control**
- **Physician Assistant**
- **Optometry Technology**

## Career :

Allied Health Science is emerging as multi dimensional branch of service which is filled with great opportunities. As paramedical is only capable of removing and diagnosing different diseases, it has given way to career opportunities and played an important role in improving the health condition of people. After completing the basic courses in any of the paramedical streams the candidate can stay cover job in a hospital nursing home clinic health department etc. With the opening of corporate hospitals the score for the professional has increased tremendously. The candidate can also choose for teaching as a profession. Besides, they can open their own laboratories or clinics.

Over the coming years the number of jobs in the paramedic field are expected to rise phenomenally. This can be attributed to the fast growth of medical sector and advancement in medical science. As more and more healthcare establishments come into existence, the requirement of support staff on the go is going to go up. As facilities get more sophisticated, the need of paramedics also rises. For instance, paramedics are now required in helicopters and aircraft's transporting patients. This wasn't the case some years ago when the scope of healthcare wasn't this advanced. Paramedical courses in India are a great bet to get an entry into the medical sphere and move onto better satisfying careers.

## HOSPITALITY & TOURISM STUDEIS

Hotel management is the system involving the management of all things related to the hotel business. As a field of study it involves learning the management techniques that cover all aspects of managing a hotel business including hotel administration, marketing, housekeeping, accounts, maintenance, food management, catering, and beverage management. The goal behind learning this management system is to run a hotel properly while managing all aspects of the business.

Each individual who works in the hotel management field is required to be aware of their duties and responsibilities. In other words, the industry needs specialists to carry out each type of functions to eliminate any errors. Only someone who has completed a hotel management course followed by minimum number of years of experience can run such a complex and vast system in a proper and professional manner.

### About You :

If you are looking for a work environment that's different from traditional ones, is interesting, and keeps you on your toes, hotel management can be the perfect career choice. When working in the hotel industry, you also get the opportunity to meet people from all walks of life including celebrities. This includes famous thletes, actors, business tycoons, and other types of celebrities from across the world.

Another point that makes working in the hotel business more exciting is that the daily work environment always keeps changing. You will always have something new to do.

## About Us :

The last decade has witnessed multitude of changes in the realm of hospitality and transformed the entire industry. At present, the Hospitality & Tourism industry is at an all time high and is proving to be one of the most viable options for a successful, established and satisfying career. D.Y. Patil School of Hospitality and Tourism Studies offers a variety of courses across all disciplines of Hospitality and Tourism. These courses are designed in accordance with contemporary academic requirements and industry standards. The college also offers courses through International tie ups and industry associations. These courses provide the students with a cutting edge and prepare them to take the industry head on.

Our Chancellor, Dr. Vijay D. Patil believes that is vision which one needs to achieve success. He asserts that your vision should bring in front of your eyes a goal- which you must strive to achieve. The youth of today have a lot of promise and potential. It is this potential which needs to be harnessed in order to ensure indomitable progress of our nation. D.Y.Patil School of Hospitality and Tourism Studies salutes Vijay sir's vision and is working towards turning this vision into reality.

Set in the picturesque and serene landscape of Navi Mumbai, at a stone's distance from the charismatic city of Mumbai, D.Y.Patil School of Hospitality and Tourism Studies is a pioneer in Hospitality and Tourism Education. It was established by the Founder Chancellor of the university, Padmashree D.Y. Patil in the year 1992.

Since then, this institute has grown tremendously and garnered immense recognition. Earlier, it was affiliated to the University of Mumbai but in 2005, it was incorporated under D.Y. Patil University. Both Academia and industry consider the college as one of the best institutes of Hospitality in the country. The Outlook magazine recently ranked the college as 10th at an all India level among the best hotel management colleges of the country. Global Human Resource Development Centre (GHRDC) has awarded the college 1st rank in terms of best hotel management colleges in the state of Maharashtra and 6th in the category of super excellence. India Today magazine ranked the college at no. 14 in its pan India survey of best hotel management colleges of the country. The college also attained no. 3 position in the Times survey of best hotel management colleges of Mumbai.

It has earned this reputation after years of consistent struggle, hard work and determination. The college is not only associated internationally but has a lot of national level tie ups as well. It has tie ups with Indian Culinary Forum (ICF), Travel Agents Association of India (TAAI), Maharashtra Tourism Development Corporation (MTDC), World Association of Chef Societies (WACS), Hotel and Restaurants Association of Western India (HRAWI) etc. The college takes pride in its foreign collaboration with the University College of Birmingham, U.K. as well as with City and Guilds. The college sends its students for a six months industrial training to one of the most reputed colleges of Hospitality, University College of Birmingham.

The college also has a tie up with the leading proponents of hospitality, City & Guilds, U.K. The college offers certificate courses in Front Office, Culinary, Bakery etc. in association with City & Guilds. The students attend lectures here, complete the course here, write the exams here but they get the certification of City & Guilds, U.K. Thus, the college has brought global exposure, global certificate courses right here in Navi Mumbai.

Through the past two and a half decades, the college has progressed immensely and has made a mark in the realm of Hospitality Education. This has made a lot of celebrities and industry stalwarts recognize our potential and have praised us for our contribution to Hospitality. Be it Chef Pankaj Bhoudaria, Chef Harpal Singh Sokhi or ace bartender ShatbiBasu or Michelin star chef VikasKhana –they all have visited us on our campus, have interacted with our students and have shared their experiences with them.

Along with imparting quality par excellence education and industrial exposure, the college also strives to get the best of hospitality brands to the campus for placements. The college takes pride in asserting that our students are placed with brands like The Oberoi, Taj Group, Leela, ITC, Hyatt, Jet Airways, Indigo, Hilton, Radisson, Four Seasons, Marriott, Sheraton Group, Four Points, Vistara, Etihad Airlines, Starbucks, PVR, Inox and many more. The college, like a true achiever, has never rested on its laurels. It has raised its bar of eminence every passing year in both scholastic as well as co-scholastic domains, thereby enabling students to blaze new trails and open new portals for themselves.

It offers a myriad of courses with professional specialization in Hospitality and Tourism. The programs offered include three year undergraduate degree program in Hospitality as well as in culinary studies. The college also offers PhD. and two years masters program in Tourism. Besides this the college also runs diploma and certificate courses offering specialization in various attributes of Hospitality and Tourism studies.

All the courses provide hands on training in both theoretical as well as practical aspects of Hotel, Catering and Institution Management. Another added feature of the college is its Certificate Course in Spoken English. Recognizing the importance of confident personality and English speaking, the college has taken up this initiative for enhancing the career prospects of students. This course plays a vital role in improving voice and accent of the students and contributes significantly in polishing their personality and making them ready for the industry. The college with its state of the art infrastructure comprising of fully equipped training kitchens, plush bakeries with latest equipments and culinary machines, magnificent restaurants, breathtaking bars, Guest Interaction Laboratories, Accommodation and Rooms Division Laboratory, Information Technology Laboratories and Communication Laboratory is surely the desired destination of all those who dream of making it big in Hospitality. Internationally acclaimed D.Y.Patil Stadium gives added exposure to our students as they get to witness and participate in International events like the recently held Justin Bieber's Concert, FIFA U-17 World Cup, A.R.Rehman Concert to name a few.

Hospitality students not only reap the benefits of being part of the host university but also get the opportunity of undertaking practical training by being a part of the kitchen and Food and Beverage team of such events. This type of Industrial interaction is possible only at D.Y. Patil School of Hospitality and Tourism Studies – as we are committed to give the best to our students.

The college has ICT equipped classrooms where latest technology is used during lectures. The students are taught through power point presentations, case studies, quizzes, discussions and are made to see a lot of audio visuals which makes it easier for them to grasp the intended message of their teachers. The college also has a Learning Management System for all its students. LMS is an online portal where each and every student can access the power point, reading material, videos, question banks etc. of all their subjects. They can also submit their assignments through LMS and get an updated attendance status as well. The college also has an active Placement Cell which strives to place each and every student across luxurious hotels of the country. To make our students feel comfortable and enjoy their college life, the college also boasts of plush cafes. These cafes offer healthy meals and delicacies from different cuisines of the world.

## Career :

The hotel business offers a wide range of career opportunities. Therefore, the hotel management field provides you a large variety in terms of roles. Another advantage of choosing this field is that there is plenty of room for advancement in your field of specialization.

When you choose hotel management as a career line, you will be able to access career opportunities in different types and sizes of hotels. Most large hotels prefer promoting their existing employees over hiring new ones. It is often also encouraged to take up positions outside of your field of specialization to help you broaden your expertise.

The scope of opportunities in the hotel industry is vast. This industry is in constant need of manpower. As a hotel management graduate who is skilled, trained and confident, you can never find any dearth of opportunities. There are so many departments that contribute to different aspects of running a hotel. This also includes recreation, public relations, security, and computer applications besides the above-mentioned mainstream specializations.

Having a hotel management degree can help you get a lucrative entry position in food or beverage service, accounts, restaurant service, executive housekeeping, marketing, or other departments within a hotel. As the tourism industry continues to grow at an unmatched pace, there is continuous increase in demand for hotel management professionals. Thus, completing a hotel management course gives you a career opportunity that's vast, stable and exciting. Due to the huge demand for professionals, it is also a lucrative career.

# M

## MEDICINE

Our aim is to educate students to become compassionate thoughtful skilled members and leaders of the medical profession. Success in medicine requires application and hard work both while studying and then in practice. However medicine brings great personal rewards offering a variety of careers opportunities and excellent job satisfaction. No day in the life of a doctor is the same

The application of knowledge and research, evidence to patient care provides a unique opportunity to combine scientific expertise with the human interaction that lie at the heart of the profession.

Our courses are intellectually stimulating and professionally challenging. As a medical student you will experience a rigorous, evidence based medical education within the research environment of the University.

We enable students to develop the excellent communication, clinical, interpersonal and professional skills required for good medical practice. We focus on combining training in the core medical sciences with a broad based clinical curriculum encompassing primary, community-based and hospital care, prepares our students for a range of career across general practice, medicine, psychiatry and other specialities.

We prepare them for their future medical career with a solid foundation in basic and clinical science. With an emphasis on early clinical contact combined with the applied science students will experience, explore, teaching equipping them with the building blocks of clinical practice.

## About You :

You will possess a true passion for medicine and will be ready to take on the mini challenges of an integrated medical course. An ethical approach is at the heart of your thoughts and deeds. You will have a desire to put duty into practice during your training and be eager to find out more about the many career options open to you as you progress through the course and build up your experience of different specialities.

Step out into the world as a highly competent, empathic and confident doctor. Our course gives you hands-on experience and rigorous training in modern practices from the very start.

You will have access to a range of excellent teachers from the university, healthcare sector, the hospital trust and general practice. You will also benefit from the innovative teaching such as small group teaching, problem-based and case-based learning with real patients, as well as online resources, seminars and lectures.

You will get clinical Experience from the start of your degree and develop the skills you need for a successful career. Our flexible research course allows you to explore your interest while intercalation options offer a year out to work towards a degree qualification in a related subject. We have excellent faculties and resources and you will be taught by clinicians and researchers with international reputation.

The medicine course at the University provides a very lauded intellectual training with particular emphasis on the basic science research that underpins medicine.

Students are introduced to the major system of the body and study all aspects of the structure and function in health and also the principles of disease processes. Students are encouraged to develop an enquiring approach and to consider the experimental basis of the signs in the course. Matters of clinical relevance are illustrated from the outset with students making regular visits to tutors. Students specialise in areas of biomedical science selected from a range of options. They will become adept at working from primary research literature and will be encouraged to think about critically and creatively. Students will gain in-depth knowledge of their chosen options and well as advanced technical skills at the laboratory bench and in scientific data handling and presentation. The principles of clinical anatomy is designed to teach students clinically relevant aspects of anatomy that will be of immediate use in their clinical years.

## About Us :

Our academic teaching staff are actively involved in research. Focusing on answering important health questions, such as the mechanics and genetics of disease, combating life threatening infections, as well as working on clinical trials and clinical guidelines. We have a state of art infrastructure for your training.

### **LEARN THROUGH INNOVATIVE USE OF TECHNOLOGY**

Our virtual learning environment provides access to all course learning material and e-learning packages offering lecture capture interactive feedback and electronic clinical portfolios. Our use of virtual reality was a truly immersive learning experience enabling you to visualise a range of different clinical situations in real time.

### **EXPERIENCE ENHANCED LEARNING OPPORTUNITIES**

Our unrivalled human anatomy source centre allows you to develop an understanding of the human body that will underpin your future skills, while our clinical skill resource centre will help you practice in a safe environment using manikins, Simulators augmented reality, videos and podcasts.

### **ACCESS SOME OF THE BEST SPECIALIST CLINICAL UNITS**

We offer a comprehensive placement network with nationally recognised centres of excellence. Regular sessions throughout the year provide a link between primary and secondary care helping you to gain an understanding of how illness and disease present in different settings and how chronic disease is managed within the community using a team approach. Students get a hands-on and practical learning by attending sessions with experienced doctors in our own 2000 bedded Super Speciality Hospital.

### **JOIN A SUPPORTIVE COMMUNITY AND BUILD LIFELONG RELATIONSHIPS**

Join an active and holistic learning community consisting of academic advisers, a peer mentoring scheme and dedicated career advisers. Our well-being and student support team also provides pastoral care to students experiencing personal and academic related difficulties as well as offering advice for maintaining good mental and physical health.

### **Career :**

When you graduate you will have the knowledge and practical skills to work as a doctor in many healthcare settings. You will be able to manage complex health care needs and develop the resilience required to meet the demands of a rapidly changing global healthcare economy. Our University medics are highly sought after by employers both in India and abroad.

# E

## ENGINEERING

Engineering is about designing, processing and making products to solve real-world problems. Our course enables you to develop your engineering knowledge, skills, imagination and experience to the highest levels.

Engineers use insight and discoveries from across the academic spectrum to develop products and processes that will change the world. From fluid flow in blood vessels to the design of ships, from the processing of medicines to the generation and distribution of energy, engineers solve problems for the good of humanity.

Engineering science encompasses the latest range of subjects from microelectronics to offshore oil platforms and involves the application of creative reasoning, science, mathematics to real problems. The Department of Engineering has a top level quality assessment rating for teaching and world-class reputation for research. Because we believe that the future of engineering innovation will benefit from broad foundations as well as specialised knowledge, undergraduate teaching is based on a unified course in engineering science which integrates study of the subjects across the traditional boundaries of engineering disciplines. Links between topics is apparently diverse in fields of engineering, providing well-structured fundamental understanding and can be exploited to give evolution teaching. Industrial experience is an extremely important adjunct to an academic engineering education and undergraduates are strongly encouraged to obtain it.

## About You :

Enthusiasm for engineering combined with high ability in mathematics and physics is essential for those wishing to study engineering course. If you are curious about how things work and have a clean mind for applying what you can learn, to solve real-world problems engineering is a perfect career for you. Engineering is the ultimate profession for challenge and creativity.

We have flexible and innovative courses that will enable you to experience a range of different engineering disciplines. You will gain a universal skill set that will allow you to work in almost any country in the world. Be a trailblazer. Learn to devise and design the future with a degree that doesn't just teach you the theory and practice but helps you connect with future employers. If you have a passion for technology and want to be at the forefront of developments that will shape the future. You are a problem solver, a keen mathematician or scientist and you want to use your skills in real applications, which also benefits for the public while respecting the need for sustainable development of the planet.

Now is a great time to study engineering and address global challenges such as increasing energy demands healthcare and population growth. Employers are faced with a serious shortage of high-quality engineering graduates to develop innovative solutions to these problems. Our multidisciplinary approach will enable you to excel in the technical social and commercial skills needed to design the processes Products and services that will improve people's lives

## About Us :

School of Engineering was established through the demand of local industry. This connection permeates the design and delivery of all our programs. The faculty of science is home to an impressive range of engineering expertise and are internationally renowned for our research and teaching in many fields, including latest innovations in energy efficiency, applied mathematics, computer systems engineering, energy materials, carbon composites, structural optimisation, energy finance and environmental assessment.

Our faculty have published books on engineering and are working with other prestigious universities to advanced research. Our Academicians produce scientific research at an international level ensuring that you are taught the latest thinking by experts in their fields. Our industrial advisory board is made up of directors from a range of leading engineering companies.

From the beginning of your degree you will be given a grounding in the fundamentals of engineering with a focus on cross team working real-world scenarios and professional skills. Whichever discipline you choose to specialise in you will well set upon graduation to make an impact in the world with potential careers in sectors from finance and business to Energy and project planning.

## Career :

As an engineering graduate you will have excellent career prospects to join the thriving engineering industry. We have close partnership with major engineering companies enabling networking and supporting student activity in innovation. Employability and transferable skills are embedded in our courses from the start so you will graduate with an advantage. Your experience will be enhanced by the teaching you will receive from a number of lecturers from the industry who will help you to develop your commercial awareness. You will also benefit from a collaboration with engineering partners.

When you graduate you will be fully qualified in your chosen area knowledgeable across the range of engineering disciplines and able to apply new technologies in normal solutions giving you an advantage over engineering graduates from other more narrowly focused courses. Our students are in great demand and they go onto career in all the major industrial and commercial sectors.

## ENGINEERING SPECIALISATIONS :

- **Electrical & Electronic Engineering**
- **Civil & Infrastructure Engineering**
- **Mechanical Engineering**
- **Computer & Information Science**
- **Information Technology**
- **Automobile Engineering**

# S

## SPORTS AND EXERCISE SCIENCES

This course covers three main disciplines of Sport science - physiology (including nutrition), biomechanics and psychology. You will gain a fundamental understanding of physiology, anatomy, psychology, biomechanics, sports performance, biochemistry, nutrition and strength and conditioning and then apply your knowledge through practical classes and research.

During your studies you will have many opportunities to use our state of art human performance labs, where you will learn to assess and improve sporting performance, as well as gain invaluable knowledge on the role exercise plays in improving health and well-being. You will also develop the analytical, written and verbal skills expected by employers.

The program focuses on the link between sports exercise and lifestyle and the prevention and treatment of disease. World leading clinicians and researchers will also teach you about sports and exercise performance optimisation and the prevention and management of sports injuries which would prepare you to practice in sports and exercise medicine within healthcare industry academia or elite sports.

This course gives you the latest skills needed to work in the cutting edge fields of sports therapy. You will learn how to assess injuries, apply treatments (such as sports massage, electrotherapy and joint mobilisation), learn pitch - side injury management and design injury prevention and rehabilitation programs. You will also study the underpinning theory of practice: anatomy, clinical biomechanics exercise physiology, sports nutrition and psychology.

Our students enjoy access to the specialist labs and high-tech facilities ,such as a dedicated sports injury clinic, and take valuable clinical placements in a diverse range of sports and exercise environment.

Beyond our industry experienced lecturers, you will learn from current professional practitioners and guest lecturers - supporting your learning and appreciation of contemporary issues within the sports and exercise sector.

Focus on the topics that interest you through work placements and research projects. We will work with you to find placement opportunities that fit your individual career aspirations. Your assessments will include a range of coursework, presentations placements, research and written examination. Trained for a record-breaking career in physical education sports coaching sports development physical activity or health at one of India's best universities sports facilities.

### About You :

If you are passionate about physical education, sports and health and are excited by the prospect of a career in this sector. You don't need to be an elite sports person you just need to believe in the difference sport and physical activity can make in people's lives. You will be passionate and innovative and want to study the multidisciplinary nature of this area and apply it to practice within the workplace. You may have your sights set on a career in teaching or as a sports performance director or you may not yet know what you want to achieve. Either way you will find at DYPU a nurturing and supportive environment in which to develop and work towards your goals.

### About Us :

The School of Sports & Exercise Sciences boasts an active research community. Our teaching is research led ,and you will learn from lecturers who are members of the Sport,Health and Education research group. We are dedicated to producing outstanding leaders who can become lifelong learners and instil these skills in others. We facilitate the opportunity to pursue nationally accredited coaching and activator awards within local organisations and complete an independent research project.

### Career :

You will enter the workplace as a skilled and confident graduate and an advocate for all forms of your chosen area. Our degrees are tried and tested routes into a range of sectors and organisations including teaching, sports development, coaching, physical activity and health promotion, the fitness industry, business research, educational research, sport science and youth, community and charity work. After graduation you may become a community sports development officer, fitness trainer, sportscoaching or you may take up sport and exercise sciences as a teaching. Our graduates work with the elite athletes, professional sports teams, healthclubs, fitness advisor, health and fitness coach personal trainer and gym instructors.

# INTERNATIONAL EXPERIENCE

From career boosting events and field trips, to festivals and travel opportunities, the experiences we offer outside the lecture room will shape the way you think about your world and your place within it.

# RENOWNED GUESTS

Renowned experts, statesmen, laureats are invited to address students, conduct guest lectures, participate in academic programs etc. Such events widens student knowledge, enabling them to become acquainted with subjects peripheral to the the topics covered in lectures and seminars and enhancing their understanding of the subject.

Lectures by these renowned guests who are a regular at The DY Patil University offer a level of personalised attention by academic experts unavailable at most Universities. They give in-depth feedback on prepared topics. Such regular and academic discussions develop and facilitate learning which is just not possible through lectures alone. These allow close progress monitoring and quick additional support if necessary.

## POLICY MAKERS

1. Steve Pound - MP, British Labour Party, UK
2. Devendra Fadavis - Former CM Maharashtra
3. Prakash Javdekar - Minister of Environmet, Forest & Climate Change
4. Viijay Goel -Former Minister of Youth Affairs & Sports

## SPORTS

We are proud to have hosted some of the most renowned sports persons from across the globe

1. Brian Lara
2. Sachin Tendulkar
3. Saina Nehwal
4. Sunil Gavaskar

## INTERNATIONAL GUESTS

1. Sir Norman Fosters, a leading Architect from the UK
2. Mayo Clinic Team, a seminal chain of medical clinics from the USA
3. Mr Charles Cointreau, VP APAC, Le Cordon Bleu International
4. Mr Greg Reid - Author & Speaker

## ACADEMICIANS

The University has invited experienced scholars to the campus regularly.

1. Dr. R A Mashelkar - Former Director General, CSIR
2. Dr. Rishikesh Rai - Prodigy in Reproductive Medicine
3. Dr Vikas Khanna - Michelin Star Chef

## STALWARTS

4. Sir Viv Richards - International Cricketer
5. Smt Pratibha Patil - First Woman President of India
6. Mr Tonino Lamborghini - Italian Industri-

Indian Lawn Tennis Legend

 **D. Sc**

A man in a blue shirt and glasses is looking up at a drone flying in the sky. The drone is a multi-rotor type, possibly a DJI Phantom, and is flying towards the right. The background features a brick building with a blue glass facade and palm trees. The sky is filled with clouds, and the sun is visible, creating a bright, hazy atmosphere. The overall scene suggests a focus on drone technology and aerial photography.

# SKY IS THE LIMIT

# COURSE DETAILS

PROGRAM BY DISCIPLINE	DURATION	ELIGIBILITY	QUALIFYING CRITERIA			
			XII %	Qualifying Examination	Fees per year	
Bachelor in Physiotherapy	Undergraduate	4.5 Years	Class XII passed with minimum 50%, PCB-50% and NEET appeared	Yes	NEET	INR 6,10,000
Masters In Physiotherapy	Postgraduate	2 Years	Cleared BPT with atleast 60%	Yes	-	INR 5,10,000
BAMS	Undergraduate	5.5 Years	Class XII passed with minimum 50%, PCB-50% and NEET appeared	Yes	NEET	INR 6,00,000
MD/MS	Postgraduate	3 Years	AIPGET cleared with minimum 50% and completed BAMS with compulsory internship	Yes	AIPGET	INR 5,50,000
Bachelor in Occupational Therapy	Undergraduate	4.5 Years	Class XII passed with minimum 50%, PCB-50% and NEET appeared	Yes	NEET	INR 1,75,000
Basic B.Sc Nursing	Undergraduate	4.5 Years	Class XII passed with PCB 45% for Open category and PCB 40% for reserved category	Yes	-	INR 1,00,000
GNM	Undergraduate (Diploma)	3 Years	Class XII passed from any stream with 45% for open category and 40% for reserved category	Yes	-	INR 1,00,000
Post Basic Nursing	Undergraduate	2 Years	Completed GNM with intemship	Yes	-	INR 1,00,000
MSC Nursing	Postgraduate	2 Years	Completed BSC Nursing or Post Basic Nursing	Yes	-	INR 1,00,000
<b>SCHOOL OF ALLIED HEALTH SCIENCE</b>						
BSC Radio Imaging	Undergraduate	3 Years	Class XII passed with minimum 50% and PCB as compuslory subjects	Yes	-	INR 1,00,000
BSC Medical Laboratory Technology	Undergraduate	3 Years	Class XII passed with minimum 50% and PCB as compuslory subjects	Yes	-	INR 1,00,000
BSC Cardiac Perfusion Technology	Undergraduate	3 Years	Class XII passed with minimum 50% and PCB as compuslory subjects	Yes	-	INR 1,20,000

PROGRAM BY DISCIPLINE	DURATION	ELIGIBILITY	QUALIFYING CRITERIA			
			XII %	Qualifying Examination	Fees per year	
<b>SCHOOL OF ALLIED HEALTH SCIENCE</b>						
BSC Cardiac Catheterisation Technology	Undergraduate	3 Years	Class XII passed with minimum 50% and PCB as compulsory subjects	Yes	-	INR 1,20,000

## Assessment Pattern

### Academic Evaluation - Theory

Assessment	Total Marks
Theory	100
Class test 1 (A)	20
Class test 2 (B)	20
Internal (A + B)	40
Term end	60

### Academic Evaluation - Practicals

Assessment	Total Marks
Practicals	100
Class test 1 (A)	20
Class test 2 (B)	20
Internal practical evaluation (A+ B)	40
Term end	60

### Examination

We follow Semester pattern with grading system 40% weightage is given to internal markings and 60% to the final exam. A Management committee makes sure that the examinations are concluded under strict vigilance and decorum of examination is maintained as per the University norms.

### Evaluation

Academic Evaluation is an integral part of the selected course and is the instrument to test what the students have learnt and retained.

### Internal Assessment

Internal assessment is based on:

1. Class attendance – min requirement 75%,
2. Assignments and theory classes
3. Mid-tern examinations I nose ore examinations both theory and practical
4. Internal viva-voce on project study

**D Y PATIL**  
DEEMED TO BE  
**UNIVERSITY**  
NAVI MUMBAI

5. General behaviour proficiency
6. In case at the end of each Semester student's attendance is less than 75%, he or she would not be allowed to sit for examination

### **External Assessment**

Total evaluation is based on the rules & regulations of the affiliating university/board as they conduct the examinations for Degree/Diploma programs. Degree Course is divided into six Semesters whereas the Diploma course is evaluated by the university annually.

Continuous evaluation is done for all courses around the year on the basis of internal tests, specific assignments., practical training, projects. etc.

### **Research Project Report**

A student has to take up a research project carrying 100 marks for Degree courses in final year as a part of the syllabus. The student selects a topic of his choice relevant his training program and during research work necessary guidance is provided to him.

## Admission Process

### Step 1: APPLY EARLY

Seats are limited; hence students should apply for courses well in advance. The application process for all the courses will begin from January 2021 and students can apply on [www.dypatil.edu](http://www.dypatil.edu).

Or

Call (+91) 8448449859. You can take a virtual tour of the University to understand about your course, where you will live, the experiences you will gain, the people you will meet & the facilities you will get.

### Step 2: COMPLETE THE APPLICATION FORM

Fill the online application form (<http://dypatil.edu/application/>) and mark the courses that you wish to apply for. The cost of applying for undergraduate programs is INR 1550, postgraduate programs is INR 2150 & doctoral programs are INR 3150. Scan and attach your recent photograph and valid address proof along with the application form. **SUBMIT YOUR APPLICATION.**

### Step 3: ACKNOWLEDGEMENT OF APPLICATION FORM

We will send you an acknowledgement email, which will explain how to check the status of your application. We will call you in case we require any additional information.

### Step 4: ASSESSING YOUR APPLICATION

Once your application has been received, it will be considered and we might ask you to come and meet us for an interview/Group Discussion/Written Test or undertake the same online. We will further analyze your application to ensure you meet the eligibility criteria for the program(s) you are applying for. We consider your academic history and relevant experience to ensure you can succeed in your program. The assessment process usually ranges between 2-10 working days. Once the process is complete, we will get in touch with you and let you know the status of your application.

### Step 5: POSSIBLE OUTCOMES

We will get in touch with you and let you know the status of your application. The following will be the outcomes:

- **CONFIRMED:** You have been granted a confirmed seat and you can claim it by submitting the relevant documents and paying the tuition fee.
- **PROVISIONAL:** You have met some of the eligibility requirements for entry to your chosen program of study and we would like to offer you a provisional seat till you satisfy the rest of the requirements in a stipulated time frame. If you are unable to clear the eligibility requirements, your admission will stand Cancelled.
- **CONDITIONAL:** You has to meet the conditions and approvals listed in your conditional offer in order to claim a formal offer from the University.

**D Y PATIL**  
DEEMED TO BE  
**UNIVERSITY**  
NAVI MUMBAI

- **DECLINED:** If you don't meet the entry requirements or all seats are taken, we might offer you an alternative program.

**Step 6: ACCEPTANCE OF OFFER**

Once you accept our offer, we will require your documents and once the documents have been verified, you will be required to pay the tuition fee.

**Step 7: EASY PAYMENT MODES**

We offer student-friendly installment schemes & also give the facility of student loan. You can learn more about it on [www.dypatil.edu](http://www.dypatil.edu).

**Step 8: WELCOME**

You will be invited to our Orientation Day program, during which you can complete your registration process, meet your faculties and new classmates visit your department, check into your residence explore the university and most importantly have fun!

## Application Form

### For Admission in Academic Year 2021-2022

Applications are invited from candidates desirous of taking admission to D.Y. Patil University, Sector -7, Nerul, Navi Mumbai

This is an online application form and the form must be filled correctly in the first attempt.

If you want to make an offline application please visit the Admissions Office, Near Registrar Office, D Y Patil University, Sector -7, Nerul, Navi Mumbai.

Note:

- The candidates are advised to submit only one application form. If a candidate submits more than one application form, his/ her both applications will be rejected.
- The form is not editable under any circumstances.
- Remember to take a print out of the confirmation page. Please keep the confirmation page and copy of proof of processing fee deposited.
  - Cost of Application for Undergraduate programs: INR 1550
  - Cost of Application for Postgraduate and Higher programs: INR 2150
  - Cost of Application for Higher than Postgraduate programs: INR 3150

**Disclaimer: The application form is NON-REFUNDABLE.**

Submission of online admission form is an initial step in the process of admission. It DOES NOT guarantee admission in any course. Allotment of seats is strictly subject to availability. The candidate must visit the Admissions Office after filling this form to take the process of admission further. If a candidate does not report to the admissions office after submitting this form, the application will be discarded.

**D Y PATIL**  
DEEMED TO BE  
**UNIVERSITY**  
NAVI MUMBAI

## **Cancellation Policy**

Full fees will be refunded if a candidate withdraws admission within 1 month from the date of securing admission. INR 2,000 will be deducted on account of administrative charges.

No fees will be refunded if a candidate withdraws admission after 1 month of securing admission.

For withdrawal, a handwritten application has to be submitted to the Admissions Office along with the fee receipt.

Refund /Cancellation process will be initiated only after the candidate has submitted the No dues form in the administrative department.
